Speaking of Output

"Prolific" is a word often associated with novellsts and writers and it could well be used to describe the work of Pierre

The well-known Canadian author as

The well-known Canadian author and broadcaster is a min whose output in various fields or membrace output in various fields or membrace in spreadcaster is a min whose output in various fields or membrace in spreadcaster in the plants to abandon his dailware that the plants to abandon his dailware that the plants to the plants of abandon heaten the way of the decrease of the plants of the pla

We think of Noel Coward, whose cashed took place recently, after a writing career going back to the 1920s. He too was a truly, prolific writer, lyricist and composer. And so it goes: a combination of innate, talent, it goes: a co energy, drive, discipline and concentration
— the latter quality, we suspect, being perhaps the most important one of all.

Nature Trail

Looking at the problems of the Quinte nature trail, as outlined in our news pages of late, we have to agree with trail associa-tion president Jim Staveley and others that the general public is simply unaware of its evidence.

existence. We must confess too that we are as much in the dark as anyone as to the precise limits and exact whereabouts of trail, being aware only that it starts in Prince Edward County and continues for more than 200 miles almost to Algonquin

Fark.

The Association appears to be down almost to its bottom reliar, but clearly what is needed is greater awareness among indi-divuslas and groups of the trait's location not to mention a drive for financial aid. While the initial work' was financed (Government money, its main the proposal properties of the contraction of the contr

municipalities.

The association could do worse than set itself up with a booth and information facilities in some place in town. This should go far to stimulate interest.

The Mail

The Mail

The ecentricities of the mail service
in Canada are legion. Here is one more
anyway which speaks for listelf. Two letters
are involved: one was mailed in Auckland,
Two letters are involved: one was mailed in Auckland,
Two letters are involved: one was mailed in Auckland,
Two letters are involved in the canada of the control of the control

The Language

When it comes to the "Three Rs" and the ability to read, write, express oneself clearly, do sums and all the rest of it, one clearly, do sums and all the rest of it, one bookoo we seem to be hearing increasingly of late is the use of "yous" instead of "yous" where more than one person is concerned. Recently we heard a young woman whom we thought would know better say to some companions: "before you go, will 'yous' walt a minuto." Now refily. . !

U.S. Meat Sales Cut Sharply

By THE ASSOCIATED PRESS By THE ASSOCIATION TO Consumers appear to be bli-ling into the week-long meat boycott, with determination, throwing off meat sales, by as much as 80 per cent in solves of supermarkets in the United States and alking some prices To conta a round.

cents a pound.

"It's like my meat had sorph sease: nobody'll even touch "complained a meat marier in, the New York Cityera, where a check of superarkets showed the boyroit to about 80 per cent effective in the firs shopping day Monty.

on he inv stopping way should as shopping-cart check in shopping-cart check in Boker, Idaba, found 22 out of 39 women had bysased the meat counter. In Alboquerque, N.M., only shout a third of the shoppiers in one slore were taking home meat. A survey of six large Oklahoma City super-mixtest turned up no cutoriers at the meat counter in three stores, only one woman at 'up other and meat buying "about normal" in the other wan direct two.

Fisheries May Face Pressure

MONTREAL (CP) — The fed-eral deputy minister of the en-ironment says a boycott of nest could put "tremendous tress re on the fishing in-

Prisoners Home

Prisoners Home

If the United State prisoners released
by the North Victoances were so badly
treated—axins of them almost to the point
of death — It is a winder they have contthrough in such spape-ently good shape and
with their morale and loyally high.
Thèse courageous men could have been
not only tortured but deliberately incapacitated in a variety of ways by their caption.
The courageous men were a title shaky on their
victors, Some had been regit in solitary confinement, one of them for, four years, and
another man spake of being tell "living in
my own filth," Others are known to have
died at the hands of their caption.

of them spoke in similar terms of what the had had to endure that their word must be taken as true, even though there are quest-

ions still unanswered.

What we have evidence of here is the indomitable will of disciplined men in the face of deliberate brutality and harassment, war is hell and if both Americans and ese contributed to this unhappy state, there is nevertheless no provision in hostilities between nations for premeditated acts of torture involving prisoners. The Geneva Convention is supposed to guar this, but as has been the case so often it is often flouted. It was flouted in this case by the Communist North Vietnamese, as it was many times by them and by the Viet Cong in the course of the war itself - as in the case of the killing of innocent refug are we forgetting the massacre at My Lai, on

Olga Korbut and her fellow Soviet gym-nasts have gone home after their U.S. four, the 17-year-old in particular with the ador-ation of thousands of American fans ring-

silem of theisandia of American hats ringin her cars.

The young gymnast burst upon the
world scene as the Mulgich Olympics and
already ale is a legend of-ports. All greed,
and little perfection, even her occasional erron at Munich endeared her the more to her
international such cars.

Lost Heritage

Belleville recently lost a historic building with the demolition of St. Agnes Manor, the one time private mansion and school, alma mater of actress Beatrice Lillie, and erly an apartment building. Today it is

the site for a new high-rise aparment block. Contrast the demise of the old manor with the efforts to preserve such interesting homes as the Proctor house in Brighton. The tragedy is that there is more destruction than preservation these days where our historic places are concerned. From two centres — Toronto and Kingston — come reports of the severance of historic links in

The heading for example on last Friday's Globe and Mail real estate feature was this: "The Frice Tag on Hatory: Too High?" It was followed by this from writer Suam Goldenber; "The number of historic buildings in Metro Toronto is dwinding and the cost of retoring those still in-resistences in high— so fligh, it appears in Perisk of government.

and the cost of restoring those same sentence is high—too high, it appears for most groups, corporations and the various restoring the sentence of the company of the property of the company. The shutation contrasts with the large-scale corporate financing of historic restoration in the United States. These include the Rockreller Poundation's support Village near Descript, and the 25 million restoration in St. Augustine, Fla., where work on each historic budding is being financed by a different company. Charles of the company of the company

aesthetically sound.

Critalny where the Previor house is concerned Government hashtafels has been of the concerned Government and the suggested that some central organization, whether artificated to Government go not, would be artificated to Government of the control of the such a body; it has done much togressve historic buildings that could not otherwise have been maintained, as well as control of the such a body; it has done much togressve historic buildings that could not otherwise have been maintained, as well as the ravages of undicated the such as the such that the such that the such as the

Contradictions

On a number of occasions we have drawn attention to the lurid magazine literture on news stands. The detective magazines in particular come to mind. It seems also that every women's magazine in the business, including long-established top-notch publications, are competing madly ch other with subject matter that not so long ago was relatively taboo. Confronted as we sa by such material it renders all the as we see by such material it renders all the more ludderous the actions of the Metro Toronto morality squad people in banning from public sale a couple of best-seller and yet relatively innocuous works by a former New York madam.

Impact of Women on Labor Force in Canada

By FARMER TISSINGTON From The Intelligencer's

Ottawa Bureau OTTAWA The federal gov-ernment's inability to reduce six per cent level has been one of the major problems fac-ing the two Trudeau adminis-

ing the two treations.

When the unemployment rate climbed and remained high despite intusions of federal funds into Job-making programs, the government professed to be purched by the figures and was at a loss to explain high unemployment in a time of prosperity.

more Canadians reasons work. In the fall of 1971, Prime Mi-nister Trudeau publicly admit-ted the government had been caught off - guard by the in-crease in the number of people

Expressing it another way, in 1961 there were 6.681,000 women in Canada over the age of 14. This number rote to 7,770.000 in 1971 for a 28.1 per cel forcease. But the number of women in the labor force increased 62.8 per cent in the name decade.

ed atta per cens in too Bane ue-coder. Poort also ma it a is clear that the greatest increase the control of the control of the in women working or accking work it among those who are married. The percentage of single women in the labor force actually dropped from S1.4 per cent to 43.2 per cent in the 10 married women rose from 20.8 to 23 per cent in the same period.

'Nobody likes to come back to have his car fixed over. We try our best to do it right the first time.

PHONE 968-6767 31-45 STATION STREET BELLEVILLE

"If you're like most Canadians, you're pretty de-endent on your car. You need it for work, for shop-ng, for most everything, in fact. So if you have to ing your car back for service that should have been mer right the first time, you're not only inconveni-sced, but also, chances are you're going to resent it.

"Well, we know if you're not satisfied with our ice, you may not come back at all. And we want as a satisfied customer.

"So look. We're going to do our level best to see that you don't have to come back.

We don't want you back because the job was done wrong.

We want you back because the job was done right.

ended Phase a trobs.
The issue is headed for a House Hoor light, probably about April 17.
Nixon warts only an extension of his discretionary control powers, which expire at the end

less than Beef. But Fougear doesn't sell beef. His spotless, white-tiled store is a "bou-cherie chevaline," one of the French capital's 1,600 retai-lers of horsement.

News Briefs

Rotten When Packed

WASHINGTON (AP) — The Star Kist tuna fish that sickened more than 200 persons before it was recalled was rotten at the time it was canned, a government investigation has determined. A United States Food and Drum Administration (FDA) investigation shows Star Kist packed the fish in two lots and the fish was of ecomposed that a trained inspector would have been able to small it, an FDA official said.

Old Man River Tamed

ST. LOUIS. Mo. (AP) — Floodwaters of the Mississippi and Missouri rivers have stabilized giving a respite to thousands of volunteers whenew sugged holding battles against the swoller rivers. But a Corpositol Army Engineers spots man at Windheld, Mae-sauld the situation was still

Unaware of Safety Code

SEPT-ILES, Que. (CP) — The structural superintendent at a Mount Wright, Que., construction site where seven men died Nov. If sald Wednesday he was unaware a safety code existed for the provinces construction industry. Roper Gaya. 35, told a coroner's injurest he never saw the province's official book of construction safety rates and he had never heard of safety nets being used undermeath men working on high structures.

Volcano Kills Man

REYKLAVIK (AP) — The volcanic eruption on Heymay's Island in Iceland's Westman group has claimful its literal human volcanic Activation of the control of Significant of the Collar of a drugstore. He had been missiag since Friday when his boat put into Heymaey harbor for shebrir in bad weather.

Love Life Ruined

LONDON (AP) — British Overseas Airway Corp. cable stewards and hostesses struck for three hours at London airport today to protein a large to the construction of the

Demolition Delayed

TORONTO (CP) — A city alderman and a group of protestors ripped down fencing around 10 downtown bouses today to delay demolition of the buildings. John Sewell told the group that it would be illegal for wreckers to proceed with demoliting without fencing surrounding the site.

Gold Price Jumps

NDON (AP) — The price of gold jun
than \$1 an ounce in Europe today to \$5 Inside Your Intelligencer Most interviewed agree that suggestive literature is too readily available. First page, second section.

• Why do gold-colored appliances sell best in winter? Page 2.

Golf Facilities

When the rain finally settles golfers be out doing their thing. This affords opportunity to take a brief look at f situation here. We have the impres-at Belleville could do with another our nat Helievise could do with another urse. For one thing, the population has own and for another it is not by any cans inexpensive to play locally. When addition the season is marred — as it

last year — by poor weasses;
a mort-costly.
With only one course in the immediate nity — the Bay of Quinte Country Club that leaves the Believille Golf and miry Club at Marysville (which has been operation a couple of years or so) the y other one within relatively easy

ance.
Other courses popular with local
ers who are not affiliated to any one
o are Barcovan, Picton, Stoco (Tweed)
Oak Hills at Stirling. And of course

Prices and Imports

Prices and Imports
With President Nixon ordering a ceiling
ment prices it is logical to suppose there
is a similar leveling of here. But
the a similar leveling of here. But
the control of the control of the control
the control of the control
the control of the control
t

with from the United States and further d. Just as there is an obligation on the of the province to zone fruit lands for much production, Mr. Stewart urged a cetting be placed on imports. If if the home industry is hunting we lid think Mr. Stewart would be right in gench restrictions, but he does not go or as to say that, noting only that it is

ir as to say that, noting only that it is no approximate than a sprawl or the construction of the militarbat was considered and the construction of the militarbat was competitive at the three products competitive A rate the imports really selling so well Canadian growers and canners are not greatly as the competitive society we should be able to the competitive society we should be able and our own with the imports. Process and the considered only as a self-three construction of the considered only as a self-three construction.

Linguistic Rivalry
onsidering the vigor with which the
au government is pushing bilingualmeaning of course that French be
equal standing with English, it is
to cognider that meaning of course that French be equal standing with English, it is to cognider, that in "the mother ty" — Figure — a "terminology com-non" has been hard at work phassing, host of English expressions that have into the tongue and replacing them true-bite Gellis terms. The commission says it has found 350 th words to buy the English that chumn use to fill in what are described the backles to their own increase." It

nmen use to fill in what are described he holes in their own language." It een working on the areas of show-ess, television, transportation and technology and said it would get d to finance, sports, computers and m. It may be an uphill battle though,

as further terms will infiltrate the grace-expressive — but clearly, in some ways dequate, language that is French. As for the Brillsh, they are not beneath ng a few foreign, including French, na. Now what could be more expressive in "janz pas," or "bureaucracy" to name a couple. The Scandinavians borrow see English terms siaskand the Russlans, the couple of the see English terms siaskand the Russlans, English terms also and the Russians, and yenough, use that colorful piece of vernacular, "hooliganism" for the bad in their midst. The term "playaver," for nee, meaning a conference, especially or with African tribes, or idle er, is used fairly universally, and here is a thought, whatever need Experistory.

DIAL 962-4595 PLENTY OF FREE PARKING AT THE DOOR

Meat Prices No Worry

Much prices and boyosit talk were of little concern to Bonnie Cooley of 144 Vormans Street as the stacked her fifth cart of much in yealerday's Preple Closs shopping-pures at the Miracle Food Mart, "the hat to go right out and buy a freeser," she sind, to store the 31,07468-worth of must also copped up free in the fire-mininte spree. She estimated the supply would last "at issues a year." Jim Graham of BR 3, Seleville ran a similar race today at Proof City.

A Good Cause

What Samuel Butler said of Canada's largest city — "Oh God Oh Montreal" — reterring we understand to the liquor laws of the time, we might also apply to the more petty aspects of Canadian nation—

or the time, we might also apply to the more petly aspects of Canadidan nationalization.

Consider that charity issues match in Torondo, fracturing Academy, Aunel size Interest that the control of the

all in one.

Now how about a series of charity hockey or football matches in Ganada.—or even in the U.S., so that we can east our thoughts to those in need not only at home but around the world. Goodness knows, we squander our money on lesser things!

Home Again

Missionary Lloyd Oppel is only 21, yet he has the bearing of one of mare mature years. Released from a Communist prison camp somewhere in Indochina, Oppel is a young man of whom Canadians may be proud. He has not yet told the full story of his capture and imprisonment — he is still suffering from malaria contracted abroad —but has promised to do so when his

—[but has promised to do so when his health permits.

We do know that he was "tortured psychologically," as he put it. Young Oppel's bearing however suggests he has Oppers bearing nowever suggests he has the strength not only of his own buoyancy of character but of religious convictions. What little we know of Lloyd Oppel sug-gests that Canada is the better for young men like him - as much at home as in far-off spheres of service.

More Play Tennis

As a footnote to our reference recently to Australia as a model for tennia enthusiati, there is the example of a competitor in the Toronto charity event — Australian-Door Tweels Brown and a former Toronto resident, before said: "Severyody in Australia learns how to play tennish, Tennia and swimming are computery at a cohoo!"

computery at school."
Well at least it is gaining in interest
here, thanks also no doubt to the growing
impact of the professional circuit with Red
Lawer and complay. Soon perhips we shall
ind ounselves in this country of the somewhat mocking — and Victorian — "Anyone-for-Tennis" mentality.

Prison Staffs Refute Kingston MP's Views

New Dodge Electronic Ignition System. It makes your life a little simpler.

The first question you're going to .

The second. How is it going to simplify

O.K., to answer the first part. In any conventional ignition system

the mechanical breaker points may be the cause of some problems. Knowing this, Chrysler engineers developed a solid-state electronic system (all 6 & 8 cyl. engines) that eliminates the need for breaker points and condenser, and their resulting

maintenance headaches. That essentially, is what the new system is. Now for what it

can do for your car and your wallet. For starters your car is going to start

better at mileage levels when mechanical systems normally start to deteriorate.

And because engine misfiring at high-way speeds is virtually eliminated exhaust ssions are greatly reduced. What will it mean to your pocketbook?

Because there are no points to wear out,

no condenser to replace, the cost of tune-ups drops considerably.

The new electronic

ignition system is just one of the many standard features built into Dodge. New front disc

brakes, (except Dart with 6 cylinder engines), unibody construction, torsion-bar suspension (except Colt) and new emission control systems are among the impressive list.

Dart

Innovative engineering plus extra care in every detail, make us believe your new Dodge is the best Dodge we've ever built

Kitchen Showers Practical For the New Homemaker

Kitchen showers are a wel-come freat to any new bride and particularly when one of the gifts might be a minipan set designed to serve as cooking utensils as well as serving dish-

More and more brides are working and anything that can save time in the kitchen, such as preparing caseroles ahead, freezing them and then bring-ing them out for hubby or

puests saves enter an inter-compliments.

Decorated porcelainware re-quires less heat, heats more quickly and an he placed in the dishwasher for speedy clean-

This cookware takes its pat-tern from the age - old wonder-ful palaley design. This trend of decorative cookware offers not only practicality, but added de-sign to a new kitchen.

THERE'S NOTHING LIKE A DIAMOND TO PUT COLOR IN YOUR LIFE.

A fine diamond shows every color of the rainbow. Because it has the power to break up light and flash back every bue in the spectrum. And diamonds reflect the color around them. We'll show you the importance of color and help you choose a fine, clear diamond. To put new light in your life.

STROUD'S 206-208 FRONT STREET

You'll Live With Tableware All Marriage Long

Once again life revolves around the table. Today's new-ly married couples are living a lifestyle that incorporates ele-gant, small dinners and casu-al, fun-filled buffets into their

al, fur-filled pointes into over-metralining ways.

More important, newly-weds are using what their parents re-ferred to as the "good" table service for their own pleasure and enjoyment. These young couples recognize and supred-tion by the property of the pro-ties the besents; the worth, the ate the beauty, the worth, the artful craftsmanship in quality aliver, china and crystal.

What better way to gift them on their wiedding day than with on their wiedding day than with table appointments that will be used and loved from the wery, beginning of their life together? SILVER FIRST

Bride Who Sews Is Fortunate

The girl who's learned to sew in high school, and takes pride in being one - up on fastion trends is likely to be the bride who opts to sew her own wed-ding gown. It's one sure way of expressing her own highly de-veloped taste, And it's in lie with the simpler, more natural trend of today.

Where is it written that a bride must be done up in sat-ins and lace? Great — if she is the type — and lots of girls are. But even greater is the freedom of choice, in design

and fabric, available to the bride who elects to sew her own gows for that great day.

gous for that great day.

This year's bride may choose from all the light, airy fabrics, like dotted wolle, pique and
organdy and leno, that are easy
to sew and lovely to I o o k at.
Their prices as the practicalminded miss is sure to note, are
a fraction of the cost of knurry.

lyester and rayon) in a soft pastel strewn with blossoms, which sells at just \$1.29 a yard.

Since the average pattern calls for under five yards, it's easy to figure-the total cost of the dress well within the most

And just think of the compli-ments the bride will garner for the originality and freshness of her wedding party theme.

Penal 'Reform'

Penal Reform'

Penal Reform'

What price penal reform? It is generally agreed there is room for such reform, and the penal reform the such reform, and the penal reform the penal reform the penal reformed that a penal reformed the penal reformed the penal reformed that has been much too radical.

The circumstances that away been convenient to the reformed reformed reformed

anterent reakons and need for removing a material reakons and need for removing the first place. In short, they are dangerous and a menace to others. Last year, in an editorial on Johnsy Cash's visit to San Quentin and on his songs that tended to question the outside the state of the state

Interters with prison staff execultive, recounted in recent days by Ottawa correspondent Richard Jackson, make virtually be same point. And we might honorlude by recalling the New York bank robber who hast year said on his capture: "The Supreme Court will let me get away with this. There is no death penalty. Its ridiction. I can down and walk out, then throw my guide down and walk out, then throw my guident penalty." "The Government here has been going orreboard in making it easy for criminals—"

The Government here has been going overboard in making it easy for criminals—and hazardous for law-abdding citizens. It is time the pendulum was permitted to swing more toward a reasonable balance at least, and preferably toward more regard for the rights of citizens generally.

PROCLAMATION "EDUCATION WEEK"

Education Week presents a special opportunity for parents and all citizens to acquaint themselves with educational programs being offered in the elementary and secondary schools of our city.

As mayor of the Corporation of the City of Belleville, I take great pleasure in proclaiming the week of April 8 - 14, as Education Week.

on aprin o - 19, as solution Week. The theme of Education Week this year is "Human Values in Education". I commend the observance of Education Week to all citizens and hope that come more familiar with the role of the school in the development of a sense of values in our young people — a responsibility our school systems share with parents.

with parents. The educational process in our schools today is more responsive to the seeds of our society than at any time. In the past, Those who visit our schools during Education Week will have an opportunity to make objective comparisons with their own educational experiences and to observe the high level of quality that has been statisated.

Today, as never before, our schools must meet the chillenge of preparing young people for the world of tomorrow in which they, as citizens, will be responsible for the future direction of our com-munity and nation.

It. therefore, encourage every parent and every citizen to participate in Education Week 1973 by becoming better informed concerning the objectives of education as they are pursued in the schools of our city.

"ROBIN JEFFREY" DATED at the Mayor's Office this 7th day of APRIL, 1973.

Second Glance

By Viva Richmond Graham OUR CITY ON THE BAY, 1909

"These I have loved: . . the strong crust of friendly bread; and many-tasting food . . ." — Rupert Brooke in The Great Lover. * * *

Of lasting memory is a community's bakery; it lays long remembered in the hearts of its custom-era. One such bakery lighty spaker on in The Dally reads as follows:

"This bakery and confectionary business con-stitutes one of the largest catering houses in Belleville, and in cost 3.18 Frant Sirvet, ample in its proportions and splendidly equipped through-out."

When we mentioned many citizens still remark how much they miss having Dickens' bakery in our midst, Mr. Dickens replied:

"Yes, I am often told this myself—and it leaves me with a good feeling."

ive trade. Special attention is given attering in all its branches, pers being prepared in the possible manner for all its of gatherings; we do so, private entertainments, quets, etc.

riggs, private cunculanticus, rappets, etc.

"Ms. Dickers has had a loog generice in catering and may baking. A good positional position, a good bostinear, possibly in cakes and pastry-ledding cakes and outramening are a speciality.

"A large trade is done also fine confectionery, the irm manufacturing all their was choosaless, creams, and early all the candies kept in took.

They're all talking about us . . .

MAN, so the story goes, once tried to give away a bousand dollars in hundred dollar bills outside a large downtown store. At first people were suspi-cious; then they laughed at him. Finally, he was ar-reafed

restee.
Anyone giving away bundred dollar bills, they reasoned, was either a fool or a criminal.
We haven't got any hundred dollar bills to experiment with, but we ase giving something away and we think it's pretty valuable. A lot of other people do too

black It's pretty valuable. A lot of other people do to use and there is, nothing legal in that!

The articles on this page are just sample of the other people of the page are just sample of the page and the page of the pa

station "—theor' Onely, executive director, American Swimming County of the County of the Swimming of the Sw

OVEREATING can be beneficial because more natricuts, minerals and vitamins are then made available for the

PANCY: When you overest, you put on excess weight, thereby putting extra stress on the heart and most other school of Medicine carried out experiments with fish and rats on the subject. He found that when the animals received their full amounts of vitamins, minerals and nutrients while their caloric intake was reduced by one third, the animals invest of the animals reduced the caloric intake was reduced by one third, the animals invest longer—up to wive as long—and they de-

PEOPLE'S DIETS get healthier and more balanced the ere affluent they become

FANCY: Traditionally, affluence has meant a better diet, but according to Dr. Aaron M. Altschol of Georgetom University. "Affluent malioration" is becoming prevalent in our western societies. Detting to lake off anwanted pounds and generally soon exaling habits have mude it difficult for people to get all the required nutrients sift Dr. Altschol suggests that protein supplements if from soy and other vegetagests that protein supplements if from soy and other vegetages. people to get all the required may remite some of a district of the gests that protein supplements if from soy and other vegetable matter; should be developed to help correct this situation. Meanwhile, remember that the more money you have to spend on food, the more important it is to watch what you eat-not just now much

RIDING a stationary bicycle increases the size of the but-

PANCY: This exercise is an excellent way to increase FANCE: Inits Services is an excellent way to increase cardiovascular fitness and strengthen the front thigh mus-cles, but not the size of the gluteals. Muscle strength and tone will be improved in the buttock area, but not the bulk. An illusion of size increase may be given if the buftock mus-cles have bein sagging and are ben "tumed up." Actually, this exercise may result in a slir eveloping the muscles at the expense of fat. ing effect by

Pushups made easy

by Dorothy Macdonell

THE PUSHUP, once a part of practically every fitness program, is often scorped of late. The emphasis on aerobic work such as jogging has led a lot of people to believe that other, more mundane exercises are not necessary

exercises are not necessary for peak fitness and health. This is just not true, how-ever. All the jogging in the world won't improve the muscle tone and shape on the back of your upper arms, or do much for your bustline

The pushup will, and it's a wonderful exercise for general fliness and endurance as well. One reason some people tend to neglect the pushup is bore-dom. And, in fact, it can be a rather monotonous way to get fit. Too much of any one exer-cise can have the same effect. The answer is to use varia-tions of the pushup. This not only helps to insert a little varibut also adds to its effective-ness by working on slightly dif-ferent muscles each time.

Here are a few tips.

1. When you're tired of doi: pushups the old familiar way, with the hands shoulder width apart, try shifting them out wider to each side. This throws an added load on the front chest

2. Face a sturdy chair which has arms on it. Place your hands on the chair arms and lower your body until you touch the seat of the chair with your chin or chest—keeping the back nice and straight

Tough

3. Place your feet on the seat of the chair, palms on ground, and do pushups from this posi-tion. This is a tough one. 4. Assume standard pushup position on floor, but turn hands so the fingers face inward. Also try this, one with fingers tour

ing.
5. Assume standard pushup
aleyate hips

slightly so you are in a jacknife position. Do pushups maintain-ing this position. The higher the jacknife, the more difficult you will find this version. Vary the

hands positions as mer To be effective, the follows system of determining repetition should be used. First, do as man sups as you can. For your ex ercise sessions, take a quarter of this number, rest 15 seconds, and repeat six times. For example, if your maximum is 12 pushups, do three, rest 15 seconds, and re-

Once per week have a testing session to determine your maxi-mum. If you can now do 18, for example, your number of push-ups will be four. Keep progress-

ing in this way.

Some people will find they can't do even one pushup to start. In this case it is permissible to rest the knees on the floor and follow the instructions on repetitions given above until you are strong enough to do

THE MYTH OF MUSCLES AND THE MISS

DISCUSSION with coaches active in the training of feminine athletes in all sports has indicated that one of their chief problems is the lack of strength of the average girl. Because of their lack of strength mapy feminine ath-letes are limited in their skill potential.

Tennis coaches pointed o that lack of strength made it imthat lack of strength made it im-possible for the average girl to serve or stroke hard enough to get real pace on her shots. Swim coaches complained that their athletes needed more arm strength. The story was the same regardless of the sport concerned.

concerned.

In studying this problem, I have found that though the same lack of strength problem is present in masculine athletes, it is

not as apparent. The reasons appear to be: ear to be: 1. Masculine athletes incl ore strength work in their raining programs.

2. Feminine athletes are com-

paratively weaker since they have not developed muscular strength through the childhood activities com on to boys. ctivities common to boys.

3. Girls are hesitant about

doing strength exercises because they fear they will develop an emly muscle structure.

Investigating the situation fur-ther, I found that nearly every coach of feminine athletes agreed that improvement in strength could create a tremes dous general improvement. believe that a strength is crease will contribute more to general efficiency and endur-ance than any other single factor —in any sport, for either sex.

· Lloyd Percival

In one controlled test in which two groups of feminine tennis players stroked a ball against a board, the group doing strength exercises showed a greater inexercises showed a greater in-crease in speed of stroke, accu-racy and ability to sustain effort than the group which did not so special exercises. The test was conducted over a period of six weeks after a series of tests had been done to establish perform-

ance patterns.
The overall improvement of

the strength group was 23 per cent as against nine per cent by

cent as against nine per cent by the "no exercise" group. In many carefully adminis-tered strength building pro-grams (using weights in combi-nation with stretching and flexi-bility exercises). I have found that great increases in strength can be accomplished with no ac-companying change in muscle size. In many cases, the girls' measurements actually were smaller in certain areas than be fore the program was started.

Done properly, a strength building program appears to im-prove proportion and contour of the feminine figure. Each girl participating in the program kept her normal muscular appearance—not one girl devel-oped any unpleasing changes in muscular appearance.

The conclusion was that every girl competing in sports of any kind should undertake a strength building program. The girl anxious to achieve top performance ards should realize that as her strength increases so will

her performance potential.
It is suggested that weight training on a progressive scale combined with muscle stretch-ing offers the quickest and most effective results.

It has also been suggested that in non-athletic life the average

girl needs strength even more than the average man since it is she who does most of the work-cleaning, washing, shopping, carrying the baby, etc.

It is not only the answer to the feminine athlete's greatest prob-lem but also the best answer for the thin girl who cannot seem to build the figure she'd love to

Don't get into a rut

LION t get into a fut.

I HAVE embarked us fitness programs many times but after a few weeks of exercise f get loved and quit, its there say way to maintain interest for periods of time when exercising?

This is a fairly common prob lem. Perhaps introducing a little variety can belp sustain in

You can start by go friend, especially if you are jog-

Many become discouraged when the program is too strenuous, so start easily and gradually increase intensity. Changing the order in which you do your exercises and perhaps switching locale can also help prevent boredom. But the most important aspect of motivation is to have a precific long-range soal to work

pect of motivation is to have a specific long-range goal to work towards rather than abstract goals such as "I want to get in shape." You might, for exam-ple, airn at losing 181b in six months — or about 2141b as

Exercising away middle age spread

middie age spread CAN THE accumulation of budy fat during middle age he constreed by exercise? Yes. One of the physical changes occurring in middle age is a lowering of the meta-bolic rate. resulting in an accumulation of body fat. Dr. T. K. Currion. a leading American Currion. The sealing American cibe can alow down the rate at which basal metabolism (the which basal metabolism (the energy required to keep the or-ganic functions going when the body is at rest and fasting) is

lowered.

It has been found as a person exercises, the metabolism increases dramatically and promains at a high level after the exer-cise as the body recovers from

In effect, when you "exercise our metabolism" — make it metion at high levels — then it will continue to function well all your life.

Physical Fitness

DOES PHYSICAL fitness affect absenteeism? Many studies have found a Many studies have round a high correlation between physi-cal fitness and low rates of ab-senteeism from work. Victor Linden of Bergen, Nor-

vay, measured the maximal ox-ygen uptake (an indicator of fit-ness) in 203 persons in different occupations. His results indicated that those who had low lev-els of maximal oxygen uptake were absent more often than workers with high oxygen up-

workers win ingli dispersions take readings.

Other studies on leisure time activities have shown that those who kept themselves fit missed few or no workdays due to ill-

GOLF

How to overcome the unnecessary muscular tension that

hampers even the best golfers

You too can beat the club champion

(sigh!)

"SIGH! If I hadn't let the pres-sure get to me, I could have won whether you are a duffer or a club champion, you have proba-bly muttered something like that to yourself or fellow golfers at

to yourself or fellow golfers at one time or another. Now hear this: if you had "sighed" during the match in-stead of at the 19th hole, you might have won.

A study that was made to find

out why so many golfers who ap-pear to have efficient mechanical techniques still make too many bad shots showed clearly that a high degree of undue mus-cular tension just before the start of the swing was to blame.

Photographs

The study showed that this pre-stroke tension factor played a role in any shot, from the shora rote in any shot, from the shor-test of puts to the longest drive. An analysis was made of pho-tographs taken of golfers dressed so that the muscles in-volved would show during the various phases of the swing. This proved that there was nearly always an unnecessary and detri-mental tightening of muscles that reached a peak just before the swing began.

The tension was especially ap-parent in the jaw muscles, shoul-ders and diaphragm. tis natural and necessary for the muscles involved in making the shot to teng preparatory to the action; but as the photo-graphs showed, the golfer devel-ops tension in all his muscles.

ops tension in all his muscles, preventing the proper function of the key muscles. The classic signs were a tightening of the jaw muscles, holding the breath and tensing the neck and shoul-Tests were made during which

golfers aimed at targets over a variety of distances, driving, putting and pitching or tried for

slistance.

First the golfers' average per-formance standards were deter-mined, and then they performed the same test, using just one simple technique designed to re-lease the inhibiting tension as the swing started. The over-all

the swing started. The over-all improvement was dramatic. The technique used was a con-trolled exhale. The golfers were instructed to take a deep breath as they took the club back to the ready position and then to asso-ciate an exhale with the actual

If the shot was explosive (such as in a drive), the exhalation was geared to it; if the shot was gentle (close putt), the exhale was continued throughout the ac-tual shot. The reason why this works is

that there is usually an involun-tary relaxation of the body gen-erally when an exhale is made. It is Nature's way of imposit relaxation

Sighing

A good example is shown by the way people will sigh (actual-iy exhale) after a moment of iy exhale' after a moment of pressure or fession —a near-accident, an important put on the last green and so so. Exhaling with the shot helps to release the tension in the mus-cles not concerned in making the shot without affecting the muscles under effort

For example, the jaw muscles (from which most coordination-ruining tension emanates) will relax on the exhale, as will chest and stomach muscles. All the golfers who were test ed with the "simulated sigh"

AL BALDING (above), one of Canada's top-ranking gotf-ers, gives more tips for golfers in each issue of Sports & Fitness Instructor. Pick up a free copy at your nearest Shoppers Drug Mart Store

technique reported a feeling of ease, a smoother flow of move-ment, of conscious relaxed con-

A certain amount of practice is needed in order to properly gear the exhale to each type of shot, but skill is developed in surprisingly short time.

A few golfers naturally relax during the swing, but observa-tions indicate that as many as 98 per cent hold their breath during the shot, releasing it only on the completion of the action. Try it. Practice it. You too can

beat the club champ Sigh!

TRACK & FIELD

Short stride for fastest getaway

THE OUTDOORS track and field season is under way and the ath-letes are sharpening their skills in preparation for the coming This is the time to take a close

look at the various components of your events with a view to im-prove each individual skill. If you are a sprinter, for ea ample, take a good second look at your starting technique. Careful testing indicates that a sprinter will gain maximum speed off his mark if he cuts his first stride down to a length of from two feet, nine inches to two feet, eleven inches. This stride should be measured from the rear block or starting hole, and not the starting line.
It is a fairly comme

among runners to take a long first stride—reaching for dis-tance instead of driving back off

the blocks.

To avoid trying to "reach" with your leading leg, practice constantly to lead with the knee until it becomes second nature. Just about any runner can start with rapid pickup is always

an advantage. So to be able to get into high goar quickly, check your starting gear quickly, check your starting technique carefully during prac-tice and make certain that your stride length conforms to the fig-ures listed earlier.

More on coaching and training techniques appear every month in the fact-filled editions of Sports & Fitness Instructor. Make sure you get your free copy as soon as it arrives at your Shoppers Drug Mart Store. The Shoppers Drug Mart VOLEY VOL.5 NO.41 SAVET household needs skin care dental needs

Early Links

A sense of nostalgia tricks us into ring they were the good old days, but picture, not to mention the personal lection, of steam train 6218 thunder-across the snowbound Hastings tryade, its smokestack beiching, sug-

countryside, its smokersket befelting, sug-gests otherwise.

gests otherwise.

The state of the

Hames.

When the first load of canned goods from Picton left the lown for Winnipeg in 1883 the problem of protecting pershanker from frost hadeen considered. Apples for instance were packed in bereits and hillyed in box ears heated by small wood stores. One thinks of the fire risk there too.

In box cars hested by small wood stowes, the control of the trick there too.

This and a mark of other information about Bolletin batteric links with the ralicosal and with companies serving both the prince Edward counties are contained in Nick and Berina Mika's latest work, a pelotral history criticle Ralisway of the trick and the state of the trick and trick and the trick and th

peg. From Teronto that is.
From The Hastings Chronicle (Belle-ville) of May 5, 1853, we read of the pro-posed Grand Trunk Railway system, of the more recent but also defunct Newlie "Bullet," and discover that the rotate snowplough was the brainchild of a Toronto dentist.

They may not have been the good old days, for a variety of reasons, but they were certainly challenging times to which immigrant families contributed greatly of their courage and pirwan, exhibiting qualities which unfortunately have been substantially weakened by automation, moral deciline and all the other paraphernalia of latter-day sombier;

latter-day sophistry.

Belleville authors Nick and Heima
Mika once again have taken us back to
earlier times from which we still derive
much in the way of interest and inspiration
as well as encouragement as to the better
ordering of our lives in a modern setting.

The secret of the Eastern Outario Concert Orchestra's success can be traced to its versatility.

versatility.

Unlike major symphonies which employ the same instruments but play only two or three major works in a performance, the Balawa - based orchestra branches into all modes of music, bringing symphonic sound to a variety of popular pieces ranging from pop tunes to the established classics.

Chamber's Activities

This might be termed Belleville's "Week of Weeks." with the emphasis being placed, as it is, on education — and in addition, the les of the Chamber of Commerce.

Education Week we have already dis-cussed so it is appropriate to take a look at a body which in its own quiet way does much to maintain the social and economic

fabric of the community. In many ways the Chamber of Com-merce is the lifeblood of the community and it in turn is dependent on "tranfusions" of if in turn is dependent on "rantusons" or support from its own members as well as from the public. This can be an uphill battle, since few Chambers can point to complete financial solvency in its endeavors for the

financial solvency to an impublic good.

However the Chamber of Commerce is alive and well and functioning in Belleville, and we are happy to see that it has taken to be a suppose that it is a taken to be a suppose to be a nt of a Convention Bureau. The first fruits of this will be seen May

9-10 when the city plays host to the Assoc-intion of Municipal Electrical Utilities. Al-though the community may not benefit dir-ectly the convention will have on display more than a million dollars worth of equip ment which in turn is expected to realize more than \$3% million in business

In addition to being active in making policy proposals, the latest being the Police Task Force and the Task Force on Housing, the Chamber serves the community in a varlety of other ways. The Tourist Bureau is a notable example. The Chamber operates the bureau from its downtown location on Front Street and in addition a new Information

Sirest and in addition a new Information Centre on Quite Mail properly on North Front Sirest is planned. This should go far toward stimulating personal contact with fourtist and promoting Belleville's Image as The most recent winter carminal, mar-red somewhat by less than wintry condi-tions, was sponosed by the Chamber and there is a hint of doubt in Chamber links, may be the continue which we loop will have with the Santa Claus parades, they will con-tinue.

timus. Here is what the Chamber says. In a re-lease in connection with this week's focus and its activities: "We did enourage a citi-cular than the control of the contro

Throws Finger Away May Have Phantom Pains

You stopped drinking milk to prove you were grown up. Now read why it's time to start drinking milk again

Do you know what nutrition experts call milk? They call it "Nature's most nearly perfect food." And on one thing they agree: you never outgrow your need for milk.

Five nutrients which elp maintain your good healt. Milk is an excellent source of all five. Calcium, If you the

of all five.

Lealeium. If you thought calcium was needed by children to help grow normal homes and teeth, you were right. Except that the need for calcium doesn't top with plysical growth. The fact is that calcium is very much a factor in the days to-day with the calcium is very much a factor in the days to-days. So, time milk is an excellent source for calcium, you to should drink milk ...exey days.

ZiRobdavia. Ribbollayinis one of the

Milk, an excellent source of this vi-tamin, is a simple and practical way to make sure you get it.

3. Protein, Did you know that MILK it an excellent dictary source of high quality protein? Well, it is. So there's one more reason for you to drink milk warer day!

every day!

4. Vitamin A. This vitamin is a factor in the maintenance of health in general. Whole milk is an excellent source of Vitamin A. (Note the use of the word "whole". Vitamin A is lost when milk is skimmed.)

milk is sximmed.)

5. Phosphorus. It is (together with calcium) a factor in the formation and maintenance of bone. And milk is an excellent source of phosphorus.

Milk is not only an excellent dictory source of colcium, but of four other naturate, inc. And it procides them in such an over-frensite, simple and polatoble form. It that not trained only to drink milk again...here's

The best way to keep your children inking milk is to be seen drinking yourself. Every day! Your children will quickly pick up e idea that milk isn't just a "kids-

jood that mist isn't just a woo-y"drink, to be abandoned as soon hey hit their teens. And that idea I help maintain their good health oughout their whole lives. ot to mention what being a daily od Example will do for your own

Milk myth #1:
"Milk is fattening".
Face it: any food may be fattening. The vital question is, what nutrient value

consume?

*You might, for instance, live on chicolate cake at around 100 calories a serving, and get pirtually no other nutritional value flom it. Or you can,

Eenie, meenie, minie, milk: which type for you?

the top. Its butterfat is about 33%.
"2%." This is milk which has had part
of its natural cream skimmed off it.
Its butterfat content, therefore, is
slightly lower than, that of whole
milk...2%, instead of 33% or so.

mik....", instead of 3½% or so. Skim milk. All of the natural cream has been removed. A word of advice, though; when the cream is skimmed off milk, the Vitanian A goes, too. So if you choose skim milk, make sure you get sullicent Vitanian A from your other food choices.

your other food choices.

Flavoured milks. They're usually flavoured with chorolate. And, pussingly enough, some of them are called "chocolate milk" while others are labelled "chocolate drink." Poes this mean that some of them ren't made with milk? No, it does

he food nobody outgrows.
Including you.
Whatever resons made you give up
will, the time base one for you to start
drinking it again... at least once a day.
Because milk is not, every definition
put a child's drink. Remember,
mutationists call it "Nature's most
nearly perfect food."
And that makes it isn't now muth of

Bormann Ruled Dead

FBANKFURT (AP) — The West German government offi-cially closed its books on Mar-in Bormann today when the Frankfurt attorney-general ruled that a skeleton recordly mearthed was "with certainty" the remains of Hiller's long-mearing designed.

the remains of Hitler's long-mining deputy,
"Martin Bormane died on
May 2, 1963, between 1 and 3
a.m. on the Invalidentirase rallends bridge (in Berlin) a
short time after his accomplice.
Adolf Hitler- Altorrey-General
Herof Gouf said.
He ordered that the 28-year
search for Bormann be iermi-mated in the warrant for his
arrest litted.

Concerns All

OTTAWA (CP) — Labor Min-lster John Munro said Tuesday be does not think the govern-ment will recommend changes to the present laws regarding shortion

acortion.

Mr. Munro, minister responsible for the status of women, told the Commons labor committee that abortion is more than just a women's cause. It concerns all Canadians.

Need Energy

TORONTO (CP) — The Globe and Mail says the second vol-ume of a report prepared by Ordario's advisory committee on energy predicts total provin-cial energy requirements by 1900 will be 60 per cent higher than in 1970.

an in 1970.
The newspaper says the reret also forecasts 1990 energy
quirements at 250 per cent
reater than in 1970; and by
80 nuclear power will be proding about 10 per cent of Onrio's energy needs, increasing
125 per cent by 1990.

When Review General Manager Mr. When Review General Manager Mr. Dr. carrier for weakly. By carrier for weakly. By carrier for weakly. By carrier for weakly. By the State of t

Spreading It Around

Vincent Kelly of the Ontario Commis m on Post-Secondary Education makes use with his suggestion that opportunities for higher education should be based on ability and not economic background.

The difficulty though, according to Mr. Kelly, is how to apply standards "to force the less-gifted upper-income groups out and bring in the very-gifted of the lower-income

This means in effect that the most gifted people from all walks of life must be encouraged to fulfill themselves not only as individuals but in the service of the com-

As Mr. Kelly puts it, we need more equal distribution of "gifted people" throughout post-secondary institutions. The commissioner was thinking partic-

rly of the spheres of medicine and law. although we can view it as being applicable to other callings as well.

It will take the "fresh thinking" the Ontario Government's Jack McNie suggests from Community College boards. Speaking at Loyalist College recently the minister of colleges and universities urged more youth representation on boards, as well as wider representation of all segments of the comrepresentation of all segments of the com-munity. And an inheresting piece of advice; he wondered how well college boards got to know the students as individuals with ambitions and problems.

There is a lot of research to be done into these human aspects of the modern educational scene. We could do worse than look to what is being done in other countries, including the Soviet Union and China which have accomplished much in the field of medicine for example and have placed at the population's disposal vast numbers of qualified people. We see that in Moscow the abulance service sends both nurses and doctors on calls, or has them in radio contact at various central locations. Presumably the sphere of education is one aspect of the munist society in which everyone (everyone who is politically reliable, that is) real ly does have an equal chance. Certainly we can learn from what is being done there and

Then And Now

Many a Quinte area resident recalls the

Many a quinte area resioner recaus the days of passenger steamer travel on Lake Ontario, One is Mrs. Norma Callow, who lives in Weilington. In a recent interview Mrs. Callow re-celled the daily steam boat excursions and a side-wheeler to Picton and to Rochester, the

side-wheeler to Picton and to Rochester, the latter they cotting only about a dollar. In Commission of the Commission of the Commission of the Recurried of the Commission of the Commission of the way and there boarded crules being the counter-part today. The trip across the lake to Roche-nat today. The trip across the lake to Roch-sonnes today, expecially if it were by a mod-ern vessel such as a hydrofoli. The Russians have them, no do the Italians who find cust-omers in apots like Auckland, N.Z. where Dors.

It is fascinating to read of those earlier es and see pictures of the old steamers, paddle-wheelers and trains in books like but it is also to realize that much of the character of those times is missing from our

bwn era.

By then, while it is interesting to look back, we cannot live in the past. Mrs. Callow herself is still traveiling, though in her eighties. She travels far and wide by bus and last year visited Mexico.

eighties. She kravels far and wide by bus and last year visited Mexico.

The Weillington woman's late husband came from the Isle of Man which makes ustained to other conveyances, like racing bites and the international races there and the days when they were dominated by riders—like Geoff Duke. We recall making a tip to Douglas by naval reserve minesweeper from a Belisat and we are reminded also that there. is an Isle of Man road on Highway 15 ne

"Cash-Flow is the modern way to borrow, based mainly on what vou earn — not what you own."

Says W. R. Lindup, TD Manager, Belleville

To get a loan, a few years ago, you pretty well had to own things—like a house, or bonds, or other securities.

Now, however, times have changed. And at Toronto Dominion, we're glad of it. Today, when you come to us for a loan, we look at your earnings and expenses-or what we call your "Cash-Flow".

or what we call your "Cash-Flow, simply write down how much you carn, and how much you carn, and how much you carn, and how much you save, or pay back what's left over is the money you can afford to spend, or save, or pay back mustalments when you want to borrow. Cash-Flow is a realistic guide to how much you can comfortably borrow. It can be the same than the same want within your reach.

The back is the same and the same want within your reach.

The back is the same want within your face.

reach.

For help in working out your CashFlow, see us any time. We'll show you
how you can put it to work to get those
things that are important to you.

placed them among the prime
residential land in North America.

Two Meatless Days in U.S. To Be Urged

WASHINGTON (AP) — About 58 women meat-boycott leaders ormed a National Consumers Congress Wednesday and voted or urge United States connumers not to buy or eat meat or Tuesday and Thursdays. The boycott leaders also set up a "national day of protest"; against high food prices for Satarday, May 8. The exact form of the protest is still up in the air but the congress said there are the protest in the protest in the third or the large than the area of the protest in the large than the protest is still up in the air but the congress said there.

e oott, beginning this Taursday,
n would continue indefinitely.
The congress also passed i
d resolution asking the U.S. gov
prices, reduce exports of scarce
tools and encourage domestic
mechaction and food imports.

Bigness of Mind

In these days of participatory democra-cy, dialogue and confrontation, not to men-tion credit ratings and your name in the bureaucratic books, the concept of personal privacy is becoming, more and more ana-chronistic.

chronistic.

We think of the American POW's and
the solitary Cañadian missionary, Lloyd Oppel, who when they flew home to this continent immediately became public property
so far as their long ordeal in Indochina was

so far as their long ordeal in indocunas was concerned.

Indeed we take this kind of thing more less for granted, being members of the result of the second of the second of the contact of the second of the second more interested in the rate of their fellow human beings. Contrary to what some may think, though, we like to think also that privacy, where desired, is respected by the media.

manny through, we have a manner than the manner and the may even the men who came home described their experiences fairly readily, it not on the spot, then again later when they with their families, and become visible them. However, the same through through the same through the same through the same through the

sedian and that he should not be Ill-treated, and glying him their own food, and glying him their own food, ing critistens and aimost paramoid anti-expressed in much of the Canadian sentiment that is noted abroad in our time.

Wegean do better, if only because we desire to match it of the Canadian sentiment that is noted abroad in our time.

Wegean do better, if only because we desire to match it of the Canadian sentiment that is not the control of the

world.

We shall always have a segment of course which for one reason or other, whether a neurolte or political (meaning subversive) will see nothing good in the United States. However, since Canada and the U.S. are neighbors and are mutually dependent, the rantings of people such as these are as tiresome as they are negative.

Gifted Speaker

Giffed Speaker

The Coulified co-ordinator of the social
service program at Loyalist College, is one
of those rare poople who in classy or on publie piatforms has his audience hanging onto
out the generation and the piece of the service of the
rary listeners that there was nothing new in
his piles — that is, for "human understanding of our age," What was zone unique perhaps was the speaking up and the varying
pressures of each successing poperation, as
well as the erutilities with which it was presserted.

The passage he quoted from New York -framm critic Waller Kerr's writings remnd-ed us once again that all things come all-ted in men, allowing, that is, for the differ-ent clicumstances of each individual, and that most of us muddle through as bost we

NOTICE TO READERS

Flood Crisis At Government's Door

By DON O'HEARN

By DON O'HEARN

From The Intelligencer's

Queen's Park Bareau
In all its nearly 30 years in office the Conservative government probably never has looked
as weak as it has in this year's
flood crists.

When the first floods hit the
governmented was absolutely unprecaused.

When the first floods hit the government was absolutely un-prepared.

It didn't move until there was the first crisis.

And then it started fumbling, and at the time of writing still is.

Which really is inexo

government.
This is the situation:
Twenty years ago there was a
lood crisis on the lower Great

Twenty years ago there was a flood crisis on the lower Great Lakes. We went through a situation roughly equivalent to the one we are going through now, though not quite so serious. A select committee, of the house subsequently was presented to the house subsequently was presented to the high lake levels and what might be done about them.

the committee's report didn't reduce any pat solutions for fuure emergencies.
But one thing it definitely did
establish was that high levels on
the great lakes were cyclical
and occurred at about 20-year

we knew about it and were left to the hazard. If a couple newspapermen could see that was coming, why couldn't c didn't the government and its

"IF BOB HESKETH SAYS YOU CAN'T BEAT BLUE CROSS HEALTH PROTECTION ...

YOU CAN'T BEAT **BLUE CROSS HEALTH** PROTECTION."

"Hi, I'm Stan Bariarow. "If you've been listening to radio

or watching TV lately, you've probably heard Bob Hesketh talk-ing about Ontario Blue Cross supplementary health insurance. Why Bob Hesketh?

> "He's an Ontario Blue Cross sub scriber. But more important, Bob Hesketh is a perceptive, down-to-earth, newscaster. The type that always calls it the way he sees it.

"What's Bob saying about Blue Cross?

"In his own words: "I have Blue Cross at work through my union, and I say that Blue Cross offers you the most for your health Insurance dollar. For extras like extended health care, prescription drug costs and dental care - even coverage for visitors to Canada - Blue Cross can't be

"Don't just take Bob's word . . . give me a call. Talk to the people you work with. Talk to your employer about forming a Blue Cross Group.

"As Bob Hesketh says: 'Over four can't be wrong . . . the way I see

Overcome Hurdle

Nobody's beaten our World Outboard Speed Record, because nobody's bettered our V-4 design.

When you go 131 mph in an out-board boat, you're moving. But it's not just guts and muscle that gets you a world speed record. It's engineering. And Evinrude 3 V-4 engine design has proven it.

The V-4 Advantage
A naturally low profile. A V-engine
is only half as high above the boat
transom as a comparable in-line

We have combined the basic advantages of the V-4 design with other Evinrude engineering developments: Like our Firepower electronic CD Ignition, that delivers up to 40,000 volts to the spark plug, for

smooth running at all eds. Our Pulse-Tuned

held the World Outboard peed Record for 12 straight years! at all that engineering experience is built right into the Evinrude V-4 you can buy for your boat. See Evinrude's "Power Plus" V-4

AUTO BOATS AND MOTORS

... TO BELLEVILLE CAR DEALERS

We wish to apologism to the automobile dealers of Belleville — for the dratic price reductions on our cars at this time. But himshel space forces use to do nose of two things, Wholesale our cars to out of town dealers or sell to the spable at "Wholesale Prices". So if wholesale it must be — the new and out our buyers of Belleville should reap the bestifts. We can assure you that prices will be raised to normal levels as soon as our extra parking facilities are

High Water Hampers Ferry

The Bay of Quinte water, level is so high this spring, a loaded and truck has to remain above the Glenora ferry to keep it from finating so high loading and unloading of cars would be difficult. Picture shows eroded shore line beside the road leading to the ferry dock. For story see Fage 2.

Oueen Elizabeth First

ing of the Tikanic today by vowing to raise the ship late this year.

Woolley, 8, is a worker in a nylon-stocking factory who have never been to sea another some than \$50 a fews. But he said in an interview: "We will raise her this ryear. There is no doubt about it."

So me people question whether woolley has the woolley had the woo

job. He claims he has solved all these problemships. It is serious, it has been married to a dream for 20 years. Dur-ing that time, be has collected married to the collected of the col-nical solution of the 40,325 cm. Tinnie, the largest ship allost. When she list in feeling at when she list in feeling at twen she list in feeling at years and the collected of the years and the collected of the years and the collected of the personnel should be a solution of the sone of the richest men in the previous and other valua-bles abound are worth \$200 million.

Impact of Fame

ck in the late fiftles or early staties we were on our way home to these parts from what was then Port Arthur. It was a from what was then Fort Arthur. It was a routine enough they to Dulutt, on through a small section of Wisconsta and the Upper penharud of, Atchigam and we slopped in Mimising of the painted rocks in Longfel-low's Hawatha. Here we picked up a Maxquette new-paper in which was a picture of veienn ac-tor James Stewart and his wife. The actor

was on location for Ahatomy of a Murder from the novel by Robert Travis. It was an Otto Preminger production and the movie also starred Lee Remick, Kathryn Grant (Mrs. Bing Crosby),, Ben Gazarra and Ar-thur O'Connell.

thmr Ovcennei.

Marquette was behind us and we had no time to turn around. However we did see the completed movie. It had been a good-novel and the movie was well done too. There was a brief reference in it to Canada, one of the characters being from Deep Rit-

er, Ont.

Now we suppose we would not have paid more than pasting attention to this area had we not known of the presence of the morie people.

The same kind of thing is happening currently in St. Donais, a community in the Laurentians. Here morie actress Ursula Antessi is on location and she and film conducted in the contract of th dress is on location and she and film com-pany people were given an official reception, recently by the Mayor and townsfolk. One of the more world's great beauties, Miss An-dress is said to have broken the fee with the rather tongue-tied Quebecers when she sat-down among them and said "Come on peo-ple, let's talk." From that point on every-thing was fine.

pie, let's talk." From that point on every-thing was fine the state of the largest of the thing was fine and the state of the control of the man and the state of our own area. Mekey Romary was her a couple of years age, visit-ing with Ameliashour, native, singer Julian Gallo who, incidentially, was in town again recently for a performance at the Datfordi Fashion Festival. And how many of us re-cail the fasmes Gapuny film, Capitains of the recent properties of the country of the recent state of the country of the country of the recent state of the recent state of the country of the countr

SMITH DOMINION HARDWARE 214 FRONT STREET DOWNTOWN BELLEVILLE

CN coach travel is so very easy to take.

It's our most economical accommodation - especially with our many discount fare plans. Yet, CN coach travel is as comfortable and convenient as can be.
And perfect for families. With big roomy
seats, wide aisles and picture windows. Snacks and beverages at reasonable prices.
Take it nice and easy. Take a CN coach.
Travel when the fares are lower.
On any of our trains tipouphout Canada.

All it takes is a little planning.
And all that means is checking a CN Red, White &
Blue fares calendar to make sure you go on the
right day. A Red Bargain Day, when the cost of

CN train travel is lowest. And at this time of the year, there are lots of those around

How lone those around. Think about it, If you plan, you save! ce you've bee

CN Dayniters. The seats are something else.

And the price is almost too good to be true.

Dayniters are our new coach-type accommodation. Attractively furnished, they feature reclining seals with padded leg rests. Room to streich or snooze. Retractable meal trays at each seat. All for just a few dollars more than the regular coach fare.

Dayniters are possible result on Now on the Montreal/Nancouver Super Continental and Toronto. This summer well also have them on our Maritime trains and on the Toronto/Vancouver Super Continental.

CN trains. Big, warm & friendly.

Now, CN's discount fare plans are two ways better.

CN travel discounts are available every day for people 65 or over and youths 12 to 21 — just as they are for families. And the qualifying minimum adult Red rail transportation fare (coach travel) has been reduced from \$10.55 — providing more opportunities to save on short distances.

Savings vary according to the day of travel. Ask about them and see.

Arrive happier, take the train. CN train travel offers something for everyone.

So come. Travel CN for a change. A nice change. For business, for pleasure. Anyway you take it, you'll arrive happier.

For more information, call your Travel Agent or CN Passenger Sales Office.

Eat Protein for Poise Adelaide Daniels

When you look into the new findings in the field of nutrition these days, you find explosiveness! No field of knowledge is growing faster and changing more rapidly or holds more prom-ise for the human race.

Did you know, for example, that depression can be caused by a lack of nincin? Niscin is now called the "morale vitamin." One way that you can make sure you're getting your share of niscin is by having fish often, also liver.

Some people can't cat when they're tense; others cat more. Tension is the inability to relax and is often responsible for the terrible habit of bolting one's food quickly, taking big mouthfuls, bardly chewing, washing it down with gulps of whatever there is to drink.

Washers there is of mis.

In my experience, I've found that people who eat this way usually consume two or three times the quantity of a slow eater. It's a scientifically established fact that when you eat quickly, it takes more food to give you the feeling of being

What you eat can also make profound improvements in glossiness of your hair, the brightness of your eyes, the for ness of your skin-tone.

For poise and self-confidence, nutritionists say, feed yourself plenty of protein — as well as calcium, Many studies prove that poise and protein go together.

It's true—in that the protein you eat builds the solid parts of your body...your skin...your nails...the muscles that hold your bones in a good (or poor) posture.

With six months of good eating habits, you'll see a dramatic improvement in your looks and life. You'll have a clearer skin.

hter eyes and hair, better muscles and posture and infinitely e energy, self-confidence and fun. mitter energy, self-confidence and fun.

Halifax was named in honor of the Earl of Halifax who was removed in the Earl of Halifax who was Weight Water and makes of defeloids Desict Weight Water Cookers instrumental in the city's found.

Affects Trip Rates

During the business meet-ing, correspondence was re-ceived from the railway. Spe-cial rates for trips available to seniors were read. It was suggested that fur-ther information be found on the possibility of forming a group of district clubs. This-would enable members to ex-change lifess.

Natural Forces
The Government gets blamed for a six of Clawa vo Government gets blamed for a six of Clawa vo Govern Fark for the rawages of flooding from high water conditions on lakes and rivers. Exemitally we are all in the same boat, although those living close seating situation. What can be done for instance for people the Farcel Saddley, the 12 Govick Point-Road (Charying Piace Saddley), the Saddley lives with his invalid wife in a year-ound cottage threatened by flood waters. As Murray towaship spokemian says it was not permit of analong size distinct part of the proposed of the

ngled that the latter could have been out on similar calls.

Then this chilling observation: "That the call of the

equally impotent.
We note also where a woman had to
more out of her home in Frankford, 100 feet
above the swollen Trent canal.
It is as O. F. Villeneuve (RV-Glengarry),
the only member of the 1982 select Committee on Lake Levels of the Great Lakes
still at Queerly Park put it recently: "We
are fighting the laws of nature and I just
can't see how we can wim."

t see how we can win.

Mr. Villeneuve was in charge of that investigation and should know what he is talking about. He recalled that last year his riding had only 14 days without rain during June, July and August and with this infor-mation alone he was not surprised at the present situation.

mation alone he was not surprised at the present situated by the situa

How It Started

How it Started

All the talk of late concenging the "boycett" of meat runs strikingly parallel with
conditions in the west of Ireland when the
term in 1870 the Land Lengue was formed in
reland when bed harvests threatened another famine. The English land agent in
charge of the End of firm's estates in Counhave to reduce renus. Instead he attempted
to serve write for eviction.

Irish nationalist stateman Charle
Streagt Paralle urged that, without resortcommunication with those who refused their
communication with those who refused their
demands.

demands.

The tactic was first used against the land agent, with such aucess that he was obliged torbing in 50 volunteers from Uister to gather the harvest, and under the protection of some 500 soldlers.

And the name of that land agent — Captain Boycott, Hence to estracize, give the cold shoulder and all that.

Scent of Victory
When Tommy Auron won the Master's
golf tournament at Augusta. On much was
runner up of the pro golf circuit. One report said half first and only tour victory prior
to Augusta was the Atlanta Ciasale in 1974.
This is incorrect, for he won the Canadian

sen death overtime period.

Danny Houstow's shot on
the Oshawa net was waved
by the Oshville Convenors
early in the overtime and it
took Oshawa's Kevin McCkiland's abot on Belleville goaltender Hugh Northey with 10
seconds rengaining to coulinthe winning single shot.

With neale by Tow Parks the winning single shot.

With goals by Tony Parks
and Louis Crawford filling in
the Towers' side of the 2 - 2
score after a scoreless third
period, the tourney shots-onnet rule came into effect.

Aspiring Writer Must Read Widely

MONTREAL (CP) — The one important thing that an inspiring writer must do is read books, says Clark Blaise, suthor of A North American Education, a book of 10 short stories set mainly in Mont-

real.
"I have never known a
writer who has not been a
consart reader. I is the only
important thing," the 32year-old author said in an interview.

container reader. In the only marginal container reader. In the container may be a seen of the container of

"I read a book a day for five or six years.
"When I returned to univer-ally a few years later to study English, there wasn't a book on the required reading list I hadn't aiready read." At the age of 28 he moved to Montreal to teach English, literature and creative writing

Free Prices

LONDON (CP) — The Society for Individual Precion reports that the price of its monthly publication is to be related by 10 cents to 30 cents. The society asys the increase is not because the extra money is needed but to show its fredom to defy the government's curroot freeze on price increases.

sess taxes from 30 per cent stesament to 10 per cent. of ashesament. The bid failed By contrast, today's BDBA actually had city council step up the levy — acting a 14 percent increase aside into a fund to rehance the downtown. In 1913 merchants were talk-ing about co-operating in refus-ing to give donations or buy tickets during business bours.

about co-operatives.
Today, BOBA members are talking such things as spensor-ing a city softball-team; organizing an event with the proceeds for charity; concerned about pedestrian crosswalks, a suggestion to take the historic farmers' market out of down-

Bell Was Early Settler

its origins to the late years of the 18th century — and one of the earlier settlers in the Belle-

the earlier settlers in the Belleville ares.
He was Col, William Bell, described in local history as a school leacher and merchant. His store is in the records as located close to what now is located close to what now the Front and Dundas Streets intersection — when the settlement that became Belleville was still known as Meyer's Creek.—Apparently a man of business-

earliest sales. The carliest of these is dated July 7, 1787. In 1789, he was selling tea at six shillings a pound and sustained the sales of the sal

sband. Simpson's Tavern on the York - Kingston stagecoach route also was semething of a community hall in the city's early settlement days.

A picture on regord shows the tavern — a fair-sized two storey building on the south side of what now is Dundas St.

Nestling closeby is a smal structure zaid to be Bell's gen eral store — the retail forerun ner of today's thriving centre city business district.

Ed Thomas Front St. Veteran

In business, names, locations, hange as time passes. Many disappear as time pass-s a century or more, and it's o different in downtown Belle-od different in downtown Belle-

ville.
Yet one downtown store is in Na second century on the same site. Ownership changed hands a few years ago, but the name—along with the location — remained: The Ed Thomas to-

mained: The Ed Thomas to-bacco store.

It's been there since 1835. At least, that's as far back as Don Thomas says be can trace the time his great grandparents set up business on Belleville's Front

Term Insurance King, Schafer Has Own Style

TORONTO (CP) — Reuben Schafer sells insurance worth from \$10 to \$14 million in an

When he entered the business 23 years ago, he was de-termined not to be the finan-ance agent is be they which he described as the pest who relemitestly badgared people to buy a policy.

"I made up my mind that people were going to come to me," he said.

Enough have come to ena-ble him to lead the worldwide sales force of the Occidental Life Insurance Co. of Califor-nia for 15 years in a row. He earns an average yearly com-mission of \$104,000.

To get people to come to him, Mr. Schafer engages in a multi-faceted advertising pro-

He has bought space on bill-boards, in newspapers and in journals read by doctors, law-yers, accountants and busi-ness executives.

When potential customers enter his Toronto office, some have trouble believing it is the work place of a pillar of the insurance business.

Mr. Schafer doesn't believe In spending money on lavish quarters to impress clients.

quarters to impress coems.

An ancient, flat-topped deak occupies the centre of his office. It's piled high with telephonel, tape recorders, papers, fless and gadgets. The sides of the deak are adorned with signs saying things like. "I'm pay look busy but I'm just confused."

"When you're as great as I am, it's hard to be humble," says another. Dangling from the ceiling is an over-sized brasslere, with the words, "Sophia Loren slept here." Mr. Schafer, called Rube, dresses casually at work in an open-neck sports shirt and rumpled slacks with frayed

"My well-dressed clients envy my free-and-easy style," he said.

he said:
In his office, he keeps steel cabinets full of thousands of fokes. He thinks nothing of fokes. He thinks nothing of the full capacity of the full capacity of the full capacity of the full capacity. He had been supported to the full capacity of the full

prospects. In addition to plag-ging the insurance business, the newsletter is adorned with amusing cartoons and offers information on a variety of subjects ranging from the care of an aching back to how to mix drinks.

He gives away all types of free promotional things to

Safety Pays

GRANBY, Que. (CP) - Em ployees at the Kimberley-Clark plant, in nearby Ste. Hyacinther marked 435,000 work hours without a single accident. Minature Galleon Is Built

WALLACE, N.S. (CP) — Visitors to eastern Prince Edward Island can be forgiven this summer if they get the feeling they've stepped back in time.

By June, a quarter-size reproduction of a merchantman of the 17th and 18th centuries will be cutting through the waters

off that section of the island's sandy coastline, her square-

rigged salls filling out in the wind.

The 40-foot Hispaniola is being built at a bostyard in this northern Nova Scotia town for Keith Altass, a shippard employee in Georgetown, P.E.L. who says she'll be the Festilation of dream he's had for years.

dream he's had for years.

Garnet MacPherson, owner of
the boatyard, said the Hispaniola will have three masts' and
reproductions of 25 c a n o n
showing over her aidea. The
ship will be rigged with sails,
but will also have an audiliary

The builder says his yard usually is occupied making pleasure craft and fishing boats built to his own plans. But be wann't besitant about taking on construction of the Hispaniola, working from plans Mr. Altass obtained in Britain.

Mr. Altass said he had to have the boat bulk here because he couldn't find anyone in P.E.I. willing to take on such a Birds-eye view from city hall weathervane shows downtown Belleville. As a modern shopping centre it diraws custom from all directions, offering some 260 various businesses and ser-

4-H Clubs Attract Urban Membership

OTTAWA (CP) — In a way 4H clubs are throwbacks to a more rural, less bectic age, but they continue to thrive in both urban and rural com-

both uroan and rural conmunities. National 4H program director Jack James says in a recent issue of the Agrologist, official publication of the Agriculture Institute of Canada, that the youth organization how is attracting young people who have never been on a

ple who have never been on a farm.
Most of the 75,000 youth that belong to 4-H still come from farms, still "raise cows, grow corn and pluck chickens to get ribbons."

certains plant cliumers by get Historia. But the organization also aponsors public speaking competitions, leadership raining sessions, hikes and nature tours, conservation clubs and photography projecs.

"In very general terms, 4-H could be described as youth development," Mr. Ja m e s. Wites. "Not rural youth development, but youth development.

"This is accomplished

ment.
"This is accomplished through a calf, grain plot, garden, cooking, tractor, automobile, bachelor survival and conservation projects.
"These projects are the tools used as means to an

tools used as means to an end.

"The means can also be a club float in the local parade, club entry in the national poster composition, attending regional and provincial railies, conferences, or national pro-

conferences, or national per grams.

"The end is youth development—development of a wellrent—development of a wellter control of a wellter control of a masset to himself, his club, his comrountly and his country." Mr. James says the 18,000 leaders of 411 choles and who help sponsor the groups financially are making the youth movements. a "larger and more effective organizathen."

The trend to change is quick-ening in Belleville's city centre. And, in coming years, one of

the big spurs livening the pace will be the new Believille Down-town Businessmen's Association.
Remustered and expanded from previous organizations with a slightly different name, the BDBA is the largest downtown business and professional grouping in recent cise history. It now counts more than 250 members.

members.

Al Trotter, its president, speaks with enthusiasm of its plans. His energetic attitude reflects a group that has gained not only new membership, but fresh vitabley in pursuit of a basic mast.

so the state of th

"We all realize that so me-thing definitely has to be line downtown," says Mr. Trotter. "Something has got to be work-ed out in the next few years." Realization of such goals in-voices not only the downtown businessman but the community at large — through Cky Hall.

that it also has to become involved," says Mr. Trotter. Recently, the city agreed to a bylaw, setting axide a portion

bylaw, setting aside a portion of downtown business taxes for an improvement area. An extra 14, percent was added on business tax assessment for all in the area. With the musical control of the setting of the setting

management board.

The new membership permitted total cross - section representation. For instance, Mr.
Trotter is manager of a retail
chain, The BDBA's executive. Trottee is manager of a frozent chain. The BDBA's executive fice as vice-president, a lawyer as secretary - treasurer. The expansion, says Mr. Tro-ter, produced a good working mix — an infunion of fresh en-thusiasm from young butiness-men balanced by the counsel of

thusiam, more critical atti-tion. The over all result is "there is no doubt the downtown peo-ple are starting to be revisited. They're realizing they are part of the community." Signs of spreasing organized Involvement in the community. Include plans to sporses a ba-terial processing organized involvement in the community. In Include plans to sporses a ba-terial processing the start of the start of the start on an event like a fashion about.

ed downtown.

Also being sought — although
so far with little success — is
permission to operate the midsection of Front between Campbell St. and Victoria Ave., as a
mail for three days in mid-

July.

Such experiments have already proved successful in bigger centres — Toronto, Calgary.

Kingston, notes Mr. Trotter.

They could also be testing
patterns for the future as down-

environment and move toward revitalization. The arrival of suburban shop-ping centres marked one of the biggest alternatives for shop-pers in downtown areas. No doubt about it, says Mr. Trotter, the centres made down-town areas "sharpen up" be-cause of commettine pressure. Yet the big suburban mails also increased new shooners to the brought new shoppers to the area — who also came down

"A good downtown will bring people downtown," says the BDBA president.

Downtown areas now are mov ing with beautification programs, malls to spruce up their appeal, creating a relaxing

Downtown Businessmen Push New Look

mmanity atmosphere.
"You see it in other places
and it's exciting," says Mr. How will downtown Belleville sally evolve?

downtown."
No other area can match the multiplicity of services offered in city centres. In a city like Belleville, it's also cheaper to At present that's hard to pre-dict, but "I know the great downtown, he believes.

The 'Battle' Continues

Still the battle rages over women's lat-ter-day identity and role in society — even as provincial and federal spokesmen indi-cate that the goal is increased impolement of women in senior positions at the civil service and government level.— In Coboure Mrs. Bette Duncan, who

In Cobourg Mrs. Bette Duncan, who runs a travel agency, is the new greatdent of the Chamber of Commerce. But this is not ugh for woman journalist Doris Anderenough for woman journalist Doris Ander-son who had this to say to the Chamber's annual meeting: "We are very conscious of how we are wasting our precious resources, those vast oil fields for example, and min-erals. But we are not worried at all about the precious resource of brains and talent of half the population of Canada." Editor of Chatelaine, Mrs. Anderson al-

mented the waste involved in sending so lamented the waste invared in sending girls to university, then not allow them to use their training, "It's a man's world," she said, "And there is no hope of changing

Claiming Canadian women suffer from an inferiority complex, Mrs. Anderson also spoke of pressure by society on men to be successes and on women to suppress talents, successes and on women to suppress talents, the result being men "fear failure because they will lose their maculinity, and women fear success because they will lose their femininity."

entially, what the editor is saying is, let veryone — male and female— contribute of their intelligence and abilities for a new world. Agreed, but will the old or-der — the traditional and separate roles of men and women — permit of much change? How long will it remain a man's world?

That the whole matter is still in trans That the whole finater is Stul in trans-tions is clear. According to Sylvia Gerber, director of the «celeral women's bureau, while some progress has been made toward equal work opportunities for women there are Still people with the old prejudies are still people with the old prejudies and against working women.

Meanwhile an article in The Montreal

Meanwhile an article in The Montreal Genetic by Clare Boothe Luce, US, Journalist, author, politician and diplomat, has drawn an interesting response from woman readers. Some found in the article confirmation of their own feelings on the subject—from a writer who could not be regarded as a "professional" women's lib type in the Germaine Green-Betty Frieden mold. But other heavy the control of the control of

Gernatise Green-Betty Prieden mod. But chiers responded sharply and slong the lines of "we women are quite at liberty to fulfill unreleves the way things are." This, for example from Trainan Laing of This, for example from Trainan Laing of Man is leaving women emotionally and physically under-employed etc.". In real-ity is only a clitice and an opinion, and I ob-ject most strongly to this attitude... "Women are only study if they want into feeling abused (wifeh I ram not!)... "Women can be liberated and heapy within the institution of marriage if they really want to be. It is within each of us to de-deled our own late."

Heady stuff this and it is echoed in a Heady stuff this and it is echoed in a pleen from Andrea E. Granie of Westmount, woman, songleth Canadan WASP, married tries and have four children. What Granie is pro-women without being anti-male. She canweren the femiliate challenge "Women, Want Freedom," by asying "those femiliatis must have micro-free in the common of the common have micro-free to locate any one clae give freedom. Why should women want to be quality and support of the common of the common

Thus, we have another glimpse of what the womenfolk are thinking and doing. To conclude we might mention that high school girls these days take course in auto mechanics. But as Chalciaine's Mrs. Anderson would say, will they get to putting their skills to work, on a job basis that is?

Crawford Tries For Puck in Slot

Top scoring Belleville Dixie Lee Fried Chicken centre Mark Crawford makes an attempt for the puck in the Kingston Fort Henry slot, but he did not find the handle on this attempt in the fifth game of the Quinte-St. Lawrence Hockey League best of five champlonship series. Kingston detenceman Matthew King (second

Centre 70

Tops Towers

of three Quinte - St. Lawrence, thampionship series. Kingston had a 24 lead go-ing jato the second period in which Bob Wolfe capitalized on helpers by Brad Burkhold-er and Kevin Cook to score

Dixie Lee Loses

On Overtime Goal

from left) came to goaltender Mike Plant's assistance in shoving Crawford away from the pulet. The Belleville peewee minor centre however, did score two goals in the deciding game of the series which Didle Lee lost 4-3 on a goal. Bill Edmond with seconds remaining in the overtime period.

First Win For Eagles

which they will make the walk the OHA Series A meeting in Terrorto later this walk the OHA Series A meeting in Terrorto later this receives a meeting and the other than the other terror of the other other terror of the other other than the other ot

r and Kevin Cook to score telleville's first goal.

Tony Parks provided the rist third frame taily for towers but the remainder of he scoreboard additions came eron Kingston as Scott Raud-ng, Stephen Juniper and Lor-tic Demerah, scoring his sec-nd the game, tallied mark-ies.

Sports Calendar

complished in spile of "Cup" Perver".

Gold and purple have been selected as the team colors. Home sweaters will be gold with purple throw with purple throw with purple throw the predominant colors switched on the away uniforms. A 12" eagle will be on the sweater crest, below the word "screaming".

Fans could get their first look at the new sweaters long to the purple of the p

Registration For Kindergarten And/Or Grade 1

FOR ALL SCHOOLS UNDER THIS BOARD WILL BE HELD ON APRIL 25, 1973

To arrange registration of your child, please contact the principal of he school in your area. Kindergarten classes will be offered in the fol-owing schools provided sufficient number of children are enrolled. IN TRENTON

IN BELLEVILLE Our Lady of Patima 300 Sidney St. -- 962-2162

Holy Rosary
10 Prince of Wales Dr. — 962-2305 Holy Name of Mary — 396-5344 St. Michael's 273 Church St. — 968-5765

St. Joseph's 405 Bridge St. E. — 962-3653

Registration Forms will be sent out by, or available at, each school. Parents are requested to submit the following at time of registration.

Proof of Age (Birth or Baptismal Certificate)
 Social Insurance Number (of parent/guardian)
 OHIP Number (of parent/guardian)

Please note that where Kindergarten classes are provided by the Board, children who will be 5 years of age on or before January 31, 1974 are eligible for admission to Kindergarten classes beginning in September, 1973.

Downtown Scene

It is sumy although there is a nip in air as we take that morning constitu-nal along Front Street.

The press of people is not that of the big in nevertheless there is a busy enough air the place and there is always something interest with a referred people in the place and there is always something interest with a referred people in the place and there is always something interest with a referred people in the place erest with activity on the sidewalk and

Interest with activity on the sidewalk and the stores.
Storetrent names and businesses hange not infrequently in Belleville and faile the fundamental appearance of the knowoghare remains much the same it would be the rare person who could name ich individual concern of our downtown free.

It is always interesting to try though to keep up with what's new, that is, on

the main."

Here for instance are Stephen Licence and King Sci in their new locations, the former in the old McCarthy theatte, the insert and the stephen seed of the stephen seed and the stephen seed and the stephen seed and the stephen seed and the seed the stephen seed and the Sci behavior stephen seed to stephen seed the stephen seed to stephen

ng.

Across the street some other smaller erprises have been feeling the economic ft. A boutique near the upper bridge closed. So too has a pizzeria establish-nt farther along near Victoria. A former r ason looks closed but there is an "Op-"sign in the window and an arrow points sucher for, Now I, was of a chance It salon looks closed but there is an "Op-"sign in the window and an arrow points another door. Now, by way of a changel, effect "mixed biland" to loss it Ness direct "mixed biland" to loss it Ness direct "mixed biland" to loss it Ness isomewhere — or nowhere and you have to a little exploring. Near the Four Cor-ers an elderly genileman is having diffi-lity locating an opioidal company with a site in length to a nearby drugstore. Eat-ies and the property of the control of the late of the control of the control of the late is length to a nearby drugstore. Eat-le along the interest of the control of the late is length to a nearby drugstore. Eat-te being prepared for "the Ouzaranty Trust," also at the Four Comera new premises being prepared for "the Guzaranty Trust," as the late is the control of the control of the late until recently was a laidler were place, ext door, in what was the music shows each them is now open music allows equip-ent. And down by Victoria equip-ment of the victoria of the victori

yards and parking lots the sun shines amid a cattlering of early Spring growth, trees and shrube flourishing bravely amid the thousework and bris-share of humankind.

Of such is downtown Belleville. There has been talk of a downtown mail for a few days this summer, but it does not appear example. The state has been that for a downtown mail for a few tays this summer, but it does not appear that the state has been the summer. When the same has been the summer without it, the same has been the summer of the summer parade? We have them around Christians — why not when things are sunny and warm too?

Scientific Bent Tone again the Science and the Science and the Science and Chibby some control of the Science and Chibby some and the Science and Chibby some and the Science and Chibby some at the Science and the Science a

Still Going Strong

Sill Loong Jirong
Gasar Paul, the Algonquia Indian from
Fort Coulonge, Que, who has just celebrate
this 110th birthday, is a truly remarkable
san for his age. Pictures of the former trap-per and medicine man taken more than 80
rears ago indicate that the years have been
rind to him and that his appearance is little
litered Joday.

Contract Bridge

By B. Jay Becker

Declarer had a first-rate reason for rejecting the fin-sate. West could bearestly have the king of hearts after his first plays had revealed the A'K of pagies and see of clubs as part of his hand. It was disconceivable the and was disconceivable that the country bad in the control of the country of the property of the country of the country of the property of the country of the country of the property of the country of the country of the property of the country of t

One specific situation often dealt with is the question of whether or not to finesse when you have ten cards of a suit, missing the K.x.x. The was precisely South's pro-blem in today's hand. Mathematically, the per-centage play is to finesse rather than try to drop the singleton king behind the acc.

often than the play for the drop-dry-less was familiar with the proper percentage play, but he concethedes managed to spear East's king. After West led the king of spades and shifted to the desce of choles. South played dummy's king, which held the king of the played the age of the played the age of the played the acc of trumps, catching a gratifyingly huge

Water Fusillade

Sieve Clark, Sidney Township fireman, lirects the department's new water camon at surning rubble of Leshaped spile barn that ollapsed in flames Wednesday night. The 50-rear-old structure, owned by retired farmer stewart Lough of Avonlough Road, was emply; then fire broke out shortly after 7 p.m. Cause of he bike is unknown.

The Cat Lady

It's feeding time in Mrs. Elizabeth Mitcheff's Rossmore home as she serves steak to some of her 40-odd cata. Forced to leave Belleville when neighbors complained, she says carrent food prices may be responsible for what she calls "the terrible antipathy toward catals" in Belleville. "Cata are mest elares," she declares. "You can't foot them with, postners."

cuipting educations here and across the provincia. The increases in city baxes stems from the low percentage borease in the parent stems of continuous costs in the county. As a faster of demokational costs in the county. As of some purisherment, for baschers and principals reportedly are now bright to determine the causes.

In the county of the continuous conti

Powers of Darkness

Man's inhumanily over the years tends to cloud his good works, especially nowadays when communications spreads the word so wittly. Today the catalogue of violence as all levels of international and national so-ciety assaults the senses in ever-increasing volume, so much so that people scarcely react any more

volume, so much so well react any more react any more still engulfed in warfare. Araba and Jews remain at odds in yet another deadly confrontation in which innocents have sometimes been the pawns and in Northern Ireland violent death is an al-west daily occurrence.

In Northern Treiand voient ceats is an amost daily courrence.

Still we must try to see things in proportion. In Northern Igeland for instance the death toll in three years of violence is approaching 500, yet in one city ainon in the United States — Detroit — in the course of only one year some 600 homicides have been recorded.

the United States — Detroit — in the course of only one year some 600 homileden have been only one year of the course of the cou

Poor Diet Blamed

CREIPH, Oct. (CP) — A University of Gostph rithoriats sings improper diet is a major factor rithoriat sings improper diet is a major factor including to 800 Gostach due to beard and circu-tion diseases. In Canada each year, Dr., J. C. vander said in a weekend interview usch dis-ters as diabetes, hyperfension, anerula-tien and tabetes, hyperfension, anerula-tien and tabetes, hyperfension, anerula-ticution and the second control of the control of the second control of the second propriets on the second control of the second control of the second control of the second control of the second propriets of the second control of the second control

Rockefeller Prepares

ALBANY, N.Y. (AP) — Election of New York a governor is atill some 19 mooths away, but Gev. Nelson Rockfeller has began to lay groundwork in an apparent bid for an unprece-dented filth four-year term. Rockfeller name R. Burdell Birby Saturday as his "pre-campaign activities" director.

Derailment Causes Fire

EL PASO, Tex. (AP) — Firemen brought fer control a desert brush fire lake Sunday, tiled when about 40 cars of a 104 car Southern cific freight train derailed about 50 miles east here. The freight was carrying flamable fluids, ne of which burst into flame after the derail-ell. There were no reports of injuries oc death.

Mekong Blockade Broken

PHROM PEMH (Renter) — Eight vessels in through the Communist blockade on the stone River tooks to bring food, (ust and ammission to the beleaguered Cambodian capital. The pix vessels, six old tankers and two freighters, rived here unscathed. Repeated attempts have on made during the last two weeks to gre the pix through the blockade on the South Vetsam; side of the frontier about 50 miles southeast of

Amin Stresses Trade

NAIROBI (AP) — President Idi Amin sug-ested Sanday in Kampala that the Common-eathh summit meeting in Oltawa in August sould tackle squitely ways of increasing trade mong member states. Annia said that is view of se mitageness of the 2D increasing trade on margoness of the 2D increasing trade of the common section of trade visible the Commonwealth takes on new signifi-ance. He said Britain had "pressured" Canada to doing so.

Blast Kills Seven

EL PASO, Tex: (AP) — A natural gas explore early Easter Sunday killed seven persons and levelled much of a group of partnern buildings near the downtown section. Eight person were taken to borpital after the low, rumbling loast turned seven of the brick veneer apartments in the L-shaped block into a pile of concrete and brick five feet deep. Firemen said many of the ricklins were found in or near their beds.

Festival Manager Dead

STRATFORD, Ont. (CP) — William Wylie, 4t, eneral manager of the Stratford Shakespearean estival since 1987, died at his home Sunday. ause of death was not disclosed.

" it adds.
Rome, the daily newspaper
lessaggero reported Supday

The Easter Story
Reading the Easter story as told in St.
Matthew and the other googels is to be reminded of the beauty and economy of phrase
of the scriptural recollections of those dramattle days.

Many of us have seen various movie at of these fraumatic events: Christ's beyar, its trial before Pilate, His death and italia. and the final triumatic resurrection and indeed these interpretations is been tolh faithful and moving. They seem to the continuous control of the c

To study those passages again, and with the film re-enactments in mind, is to picture vernist that changed history. The Cross . . . the Crucilizion . . . the Crucilizion yange deoub that these things happened or that the promise they contain holds true today? Many do have double, but a reading of the promise they contain holds true today? Many do have double, but a reading of the integration of the contain the contains of the integration of the contains the contains of the list of the contains the contains of the contains the contains the contains of the contains of the world.

More on Education

Realites is an international journal of distinction. In subject matter it ranges through the arts and travel to absorbing ent on the topics of our time. It is "highbrow" but at the same time readable, "civilized" without being untouchable, the photography almost poetic.

Our doctor has the good taste to make it available among the reading matter in his office. There was one article a while back

It available among the reading matter in his office. There was one article a while back—about early marriage and its perith. It should be required reading by all young people contemplating matrimony. Exemitally its message had to do with the process of change. At 18 you are said, the process of change. At 18 you are said, the process of change. At 18 you are said, the process of change at 18 you are said, the process of change at 18 you are said, the process of change at 18 you are said, the name of the process of the said of th

of education. Speaking of human values dedeucation during Birotation week. Mr. Waand the state of the sta

the views of Dr. Memoei and Mr. Williams. A classroom where students and teachers are equal is difficult to contemplate, even if we are closer to such a state today than ever before. There must be some discipline and it is the younger people who must learn it, just as they must pass it on in time to their

The Spell of Youth

The Spell of Youth
It was just a glimpse — but it epitomized the vibrant energy and joy of youth. A
glimpse, that is, of three younglers in, we
abould imagine, their early teens, two gitts
correct and threy were disappearing down
the grassy alope there at the corner of the
Dundas Street bridge and Pront Street and
Deading under the railroad bridge into Viathere water level has encoached stifl further
onto the roadway, the youngsters melted
into a small group of kids on a wharf. Some
carried fishing rods and, for the rest of us
cound, they afforded a backware glance at
the dim dead days almost beyond recall.

Farmer Needs Fair Return

Massena (N.Y.) Observer Massess (N.Y.) Observer Too many people shouting the loudest about the high price of meat did not stop to realize the many raises they have had in pay, that they are living higher than ever before, spending a leaser, percentage of their income for food.

The farmers are not getting — and they well deserve — fair prices for their labor and return

prices for their labor and return on their investment.

The average farmer is still getting much less than the plumber, the electrician and ot he riradespeople where unlone have been able to advance prices regularly; or with the professional people — declors and lawyers and such who have increased their fees several fold.

This does no slowly the problem comparing one group with another.

time eating. Farming is now on a business like basis. TODAY IN

DAVID SULLIVAN

Teacher Numbers

Regarding the report "Fewer Teachers in Fall" April 18, without doubt leachers are the most misunderstood profession. This is in part due to very poor public relations from their fed-

eration.

The articlo which I have reverred to illustrates this. B
mentions that there will result
"a climb in he pupil eacher
ratio to 18 hd i". This must
really anger a lot of taxpayers
to see that teachers are burdened with an average of 18 punits.

cd with an average of JB per-cept with an average of JB per-pending the percept of find a teacher in the province with Bs pupils. If everybody's aunst and uncle including the secretary, principals, consultants and other bureaucrats were excluded the bureaucrats were excluded the found is) more like 28-86. It would be most interesting if you could do a story on how this formula is arrived at! For myself, I have a 33 to 1

Get pollution off your chest.

more people, more venices, must machines every day.

With that growth comes the threat of damage to our environment. Pollution of all kinds.

The Ministry of the Environment is Ontario's guardian of our air and land and water. Here's who we are and what we do:

Here's who we are and wnat we so:
Air Pollution.
1. We monitor the air for pollution and
order corrections if unacceptable levels occur
many things you can't smell and eliminate them if
ney are dangerous.
3. We arrestigate suspected air pollution injury to

3. We investigate suspected air pollution injury to people or properly of the are responsible for noise pollution and are creating enforceable noise control measures.

Land Pollution.

to de dai with all the leftovers of our affluent society—the industrial waste, processed organic wastes, and ordinary gathage. And regulate its transportation and disposal.

2. We study recycling as an aid to reducing quantities of waste and to avoid depletion of our natural

resources.

3. We control the use and application of pesticides which are unacceptable for pollution reasons.

Water Pollution. 1. We protect all of Ontario's water sources from

pollution.

2. We develop and control surface and ground

2. We develop and control surface and ground water resources.

3. We watch all potential sources of industrial and agricultural water pollution.

3. We watch all potential sources of industrial and agricultural water pollution.

Waterworks includes for Ontario municipalities.

5. We supervise all private waste disposal systems.

Ontario has some of the most comprehensive legislation in North America to protect our environment. But it will take the effort of everyone to solve our pollution problems.

problems.

Ireland's Easter

Column after column of IRA men sportedly marched to the hig cemetery at he end of Belfast's Catholic Falls Road area at the weekend. They were commemorating the Easter rising in Dublin in 1916 and

the Easter rising in Dublis in 1816 and mourning failles republicans of that and more recent times.

If British troops had wanted to make a killing so to speak, here was the opportun-tive. But they made no move; nor did they attempt to pick up David O'Connell, beller-act to be heard of the violent Portuional wing of the ITA, who made a surprise appearance has the property of the property of the hard was seen as greature of ordinance.

In the Irish tradition, as a memorial occa-nion of the ITA is the property of the property of the property of the ITA is the ITA i

on, for who can doubt that the violence will ontinue and Militown cemetery will be the cene of many more such gatherings. As for the British, with whom the majority of peo-ple in Northern Ireland wish to associate pulitically, their avoidance of any confronpolitically, their systemates of any control-tation on this occasion was said to be in the interests of preserving innocent lives. May-be, but we are reminded of an observation of Toronto columnist Richard Needham; the

bis, but we are reminded of an observation of Toronto columnis: Richard Needham; the British, he said, are "too civilized... too denote," and this is one reason why no military some of the said of t

Beatles Comeback?

Bealis Comeback:
It was Thomas Wolfe, as we real, who sadd: "you can never go back." Or as New Zesland author Hector Boillot, in his autholography, sald in affect: "You can never go back to the piaces upon which time hac cast the should be read to the should be read to the should be read to the read of th

In another context, what of the attemp-d "comeback" of athletes or entertainers? Ill the Beatles for example be able to make again as a group, as it is rumored may be

it again as a group, as it is rumored may be in the offing?

The Beaties are rather unique of course. Lataly, they have been performing as individuals, ever since breaking up as a group some years ago — occasionally, as in the case of Faul McCartony in his remote farm home in the Mull of Kintyre (a sort of 600-tith Baja California), getting away from it all, if

Their music has continued to have a trung impact, some of it in recordings researed after they broke up. The memory ingers on with haunting melodies which wave sarred the admiration of the public and other musicians ellike, achieving solidant prominence through adaptation in prohestral form by such groups as the Soul-ma Prop. a. Pops.

or Pops.

Can the Beatles do it again? There is no doubt their creative genius is still insect Jout those words of Thomas Wolfe and Rector Bolitho may come to haunt them

You give them milk to drink every day, don't you? But when did you last drink a glass yourself?

Like most Canadian women, you probably think you have outgrown the need for milk. And that's where you're wrong: milk is Nature's

most nearly perfect food...and you never outgrow it.

As North American girls grow toward womanhood, they tend to reject the things of childhood.

inhood, they tend to reject the sof childhood. carded along with the roller-and dolls, unfortunately, is the of regularly drinking milk.

A daily milk-drinking habit, begun young and continued through life, will pay handsome dividends in the maintenance of good health.

2. "Milk is fattening": it's a myth! Face it: say food may be fattening. The vital question is, what nutrient value do you receive with the calories you con-

Innocents Suffer

Children running . . . children (three to four years old perhaps) carrying still smaller kids, bables . . . several are wound-ed . . . one hangs limply over the shoulders

of another running youth, dead.

And because the war is supposed to be over, the scene from the news film etches itself into the memory. It is somewhere in Vietnam and Canadian and Indonesian peacekeeping personnel reportedly had left the place shortly before, following a rocket attack. Then it seems another rocket assault caught the civilians and suddenly all was confusion and there were dead and dying and among them were these children and you think of the piece of paper (with scores of copies, as we recall, to satisfy the whims of protocol) signed in Paris.

There have been and never will be any winners in Indochina. All that is left now is the shedding of the blood of innocents and the shattered remnants of man's folly and inhumanity. If there is any belief in miracles, then a miracle is what is needed in that part of the world. The statesmen have failed, the peacekeepers — with little or no in-fluence — are powerless, only the powers of darkness hold sway — and as ever chi and other non-combatants are victims. children

Tax Plan Axed

Well it is very gratifying to note the provincial government's decision not to im-pose that iniquitous tax on energy and home heating. The point was well made by the public — and within the Government itself that this was a harsh and unnecessary

The 1973 Super Beetle is a whole different car inside.

For one thing, there's a lot more in-side, inside. We're giving you plenty of learnom up front, And fantastic head-

We've also done a nice thing for your nose. Our new windshield is pushed way forward, and curved. It's cushed way forward, and curved. It's cushed ways larger. For, consist, the seats, too, are curved, the same way what you sit on it. And this same way you'r bock it. Interview has seen being to book on the same way with the same way with the same way will be book on the same way will be book on the same way will be same will be sa

flash.

Getting in and out of the back seat of the Bug is now pretty easy even for non-athletic

And we've had some freshide as about oir. And how to direulate it. Our remarkable improved ventilations system even de-fags the side windows.
Allogesher, the Interior of the 1973 Super Beetle is so radically different, you'd have a hard time knowing it was a Beetle, except for the steering wheel instancia.

a Baelle, except for the steering wheel insignio.

There remoin, however, certain hings insignio, and the will give you the clue that you're driving a YW.

Economy, Destination, or good and the steering of the seed of the

Transit Lack

We suggested the other day that Can-ada is light years away from rapid transit systems on a regular basis that would fac-litate the movement of people from one place to another.

systems on a regular basis that would facilitate the movement of people from one place to smother. The anti-ledge does then in this respect? The anxies is yet, the Onlario government is embarking on such a plan, and the property of the anxies is yet, the Onlario government is embarking on such a plan, and the property of the onlario government is embarking on such a plan, and the property of the onlario government for matter, all we have for the moment is other matter, all we have for the moment in the multiple. Meanthine we have the continuity specials of clutter on the highways—more cars, more thank the continuity of the particular profits of the particular profits of the particular profits of the particular profit is a highest foll than ever before during this particular profit of the particular profit of the particular profit is an era of the official profits of the particular profits of the profits of the particular profits of the particul

Now there is nothing new about this, Young hitchhikers are a common sight in Europe — but then so to are their more independent and energetic contemporaries, shouldn't young people who tunity to do so in reasonable comfort if they with 7 that being, how are they to do so? Buses are infrequent and trains are more in the realm of long-distance transportation. Again, we are left with the fact that blought and the second of young Cunsalans are for True. here are difficulties in the way of these facilities; for un such a service presuppose regulation. are difficulties in the way of these facilities; forum auch a service presuppose requires; for any of the service presuppose requirements are considered as a stifficient passenger load major that be able to support. Nevertheless there is something pathetic about hitch-likers by the roadded, sometimes in the cold of winter, and soon undet a hot sum, unable, for one reason of another in this modern artitumed load, to get be their destination under types own steam.

the writes: 'I spend made of very lonely,
the writes 'I spend made of very lonely,
the writes 'I spend made of very lonely,
the writes 'I spend made of the very lonely
mines by the life and carere of Sir Mack"The letter was written in the hope of
tracing members of the Bowell family, with
the request that he would appreciate havprime minister. It came to the gleentine of
eity railor Bill Wilson who passed on a copy
of the Intelligencer.

elty realtor Bill Wilson who passed on a copy to The Intelligencer.

We often accuse our American neigh-bors of being poorly informed about Can-ada: and its history, but here is one young man who gives the lie to that notion. And if this 16-year-old is inspired by Bir Mack-ernic Bowell's life and carer, we in turn de-rive inspiration from his demonstrable faith

rive inspiration from his demonstrable failth and courage.

and courage are some young people maybe there are some young people maybe there are some young people maybe the people of th

The Basics-Again *

The great spelling controversy continues on and off. The irony of it all is that so many people are throwing stones in glass houses. Correction of spelling errors in letters to the editor occupies us to some degree almost daily and — horrors.—we find them in letters from both students and teaterms nectors from both students and tea-hers. Recently we were shown a sampling teachers' reports on students — they were to herally sprinkled with spelling errors. It set goes to show, doesn't it.,, i

QUINTE FORD

Everything that's happened in outboards in the last ten years, has happened right here.

LOOP-CHARGED CYLINDERS

Evinrude's loop-charged cylinder design develops more horsepower from less fuel. This system allows the engine to run cooler at higher upm's, generating even more power.

PRESSURE-BACKED PISTON RINGS

Increases engine life and improves fuel economy. The higher the combustion power, the tighter the piston ring seals the combustion chamber. When the pressure reduce the ring relaxes, minimizing friction.

PULSE-TUNED EXHAUST

Gives you more power on less fuel without additional engine size. Evinude's sophisticated double-tuned exhaust system uses the exhaust pressure pulse of one cylinder to true the oth The fuel-air mixture is cleaner, more powerful.

EVINEUDE

FIREPOWER ELECTRONIC CO IGNITION

Quickest, surest starting there is.
Delivers up to 40,000 volts to the
spark plug — 250 times faster at
the firing gap. Longer plug life.
No points to adjust. Smoother
idling for troiling and running.

We're working to keep our waters clean. So every '73 Evinrude is drainless. All fuel is recycled into additional power.

Diet Problems

As if the deplorable wastage in human He through accidents were not enough, the word now — from Dr. J. C. Alexander, a University of Gueiph nutritionis— is that aproper diet is a major factor contributing to 80,000 deaths annually from heart and

The list of ailments from these-causes is disturbing and ranges from diabetes and hyper-tension to gastro-intestinal problems — and all are linked apparently with inadequate diet which in turn, says Dr. Alexander, stems from ignorance on the part of most

Looking around affords confirmation the Guelph nutritionist's view which, by the way echoes similar observations by Peterborough civic hospital chief dietician Dor-

borough civic neopital enier dietician Dor-een Hicklin recently.

From a survey of students at Trent University Mrs. Hicklin concluded that 95 per cent of them had poor to dangerous eating habits and added that the same ap-plied to the population as a whole.

Look around then, as we have suggest-ed. Some of us can be lean types yet we have a balanced diet and enjoy a reasonable level of fitness, but a great mass of the pop-ulation — ranging from pale and skinny teens subsisting on soft drinks and chips to adults hooked on steaks and the sedentary life - fall into the categories mentioned by two authorities above.

Who knows but the cause of poor grades

the two authorities above.

Who knows but the cause of poor grades and inability even to read, write or spell and inability even to read, write or spell part of multilound officiencies?

_Dc. Zac Sabry, head of Nutrition Canada, has some facts along these lines, suggesting the problem goes back even before 252 infants between the ages of 6 and 18 months who were brought into Trombi health centres revealed that one in three health centres revealed that one in three annual caused by poor diet that produced apathy, fatigue and vulnerability to illness. At the other end of the scale there is the problem of the control of the diet with the control of the diet. The problem is compounded by what might be termed the "mane's protone," related to another problem of a daid — a nurbated of the control of the diet. The problem is compounded by what might be termed the "mane's protone," related to another problem of a daid — a nurbated of the control of the control

Perfect physical specimens then are Ferfect physical specimens then are few and far between in our society and when diet problems extend into the hyper-tense sphere of business and the workaday world generally they add up to a bad scene gen-erally where physical fitness is concerned.

Taking a Chance

A curious aspect of human nature (or is it a sign of our permissive-times?) has em-erged with the great Saint John security commany robbery.

That is, there seems to be considerable

That is, there seems to be considerable sympathy with the two men, employees of the firm, who are being held in connection with the disappearance of some 500,000 in company money.

Mothing is proved as yet, in this case, Mothing is proved as yet, in this case, Mothing is proved as yet, in this case, which is a complet of employees make off with a large sum of the company's money, or funds entrusted to the company, what then? The risks are enormous; recall for example the two bank employees in Prince Zeward Island, "All places, who embacked then? The risks are enormous; recall for example the two bank employees in Prince Edward Island, "All places, who embacked thin the prince of the prince of

United States. Unless the thing is metical-outly and ruthlessly planned, with some obscure part of the world fand are there any lettly in infinal as an escape haven, what is lettly in infinal as an escape haven, what is you pull something like this in the Mari-lines and get no further than Toronto. The any event-people seem to identify with adventurers—and latent adventurers seem to be — who risk all in such a caper. If conscience makes cowards of us all, we may still experience some sort of vicarious identi-fication with these who do take a channet, friend the such sort of the such as the con-servation of the such conservation of the channel of adags, "there but for the grace of God..."

NEW YORK (AP) — After

We world.

By GEORGE W. CORNELL

Lord resources to firm up the character of the control of

Writes as World.

But now, "generous Christian people dedicated to Christian people dedicated to Christian social action are beginning to feel the need to take time out from their action, from their working for God...to turn within ... to live with Him in mutual presence.

The new interest in prayer may mean a withdrawal from social action, observes Rev. Gregory Baum of the University of Toronto, but it also may mean that church people have found that sound action requires sensitivity to God's directions for it.

This "Toronto, Phristians to

Celebrates 105th

A resident of Hastings Centennial Manor in Bancroft,
Mrs. Dora "Granny" Dodd,
celebrated her 106th bitchday
April 25. Mrs. Dodd was born
in Germany and came to Canada as a young girl. She
has no living relatives in Canada.

Select Officers

Select Officers
Bay of Quirte Power Squidron has elected new executive officers at the annual
meeting at Bay of Quinte
Yacht Club, H. Carl Red is
squadron commander, Miched Kool is reacutive officer,
Don Presant is secretary and
Bill Jones is tressurer, Other
members of the executive are
Bob Frederick, Frank Hessin,
Vic Allen, Bob Sears and Le
Jourard.

Train travel was never like this.

This is the life.

Take it when you can. Nice and says and relaxed. Dayniters, our new overnight coach-type accommodation, with adjustable reclining seats; padded leg rests; retractable meet pays and more than the regular coach lare! On the Montreal/Yanocurer Super Continental and the overnight Cavalier between Toronto and Monfeal. This summer well also have them on our Mantime trains and on the Toronto-Yanocurer Super Continental.

CN Trains. Big, Warm & Friendly.

RONALD KEEL **JEWELLER**

"Cash-Flow is the modern way to borrow, based mainly on what you earn - not what you own."

Says W. R. Lindup, TD Manager, Belleville

To get a loan, a few years ago, you pretty well had to own things—like a house, or bonds, or other securities.

Now, however, times have changed. And a class, who may come to us for a loan, we look at your earnings and expenses—or what we call your "Cash-Flow".

To work out your Cash-Flow, simply write down how much you ago and the man to the come of t

reach.

For help in working out your Cash-Flow, see us any time. We'll show you how you can put it to work to get those things that are important to you.

Hard on Animals

We are not all that well up identifying the domestic animals of these parts, but whether we can put a name to them or not it is disturbing to see the number that come to grief on runi roads. The other day we saw what to us looked like a recoon; it was being at the distortion and was seed. lying at the side of the road and was dead. Another day we saw a dead cat which similne to the end of the road. Not er life for this little creature which

another life for this little creatupe which as supposedly has nine in all. Invariably their demis is accidental, alinvariably their demis in a comparison of a comaircraft and the less responsible among the anowendile fracturally changed aminate until they are exhausted and easy game. For the most part though no one runs over these animats deliberately, indeed they are mostly as the comparison of the c

use authors of Unif own misfortune.

We recal an occasion several years ago,
We were driving back from Brockville on
doi; it was around 10 p.m. and our lights
were dipped, Suddenly, without warning, a
war no chance to synd it and the ensuing
thump confirmed our worst fears. We drove
to the Napanes OFP and reported the incident. The police continued next day that the
animal was "wery dead," as the constable
solidon that death in all likelihood was instantaneous.

stanteneous.
Still, if we could avoid these things, the
majority of us would do so.

Scouting Memories

"Scouting is "growing in quality and in quantity all the time now..." This was part of a message received recently by assistant cub master Cecil Paul of Trenton from Lady We are sure others in the scout as

Baddwise the court in the scout and guide organizations and among the general public will feel grailfied to know that the wife of the founder of these enduring youth groups still relating a keen interest in them. So the court of the court

Historic Port

Historic Port
With Saint John in the news in recent
days we think back to 1985 and a train ride
to the all-water port on the New Brunswick coast. It was early March, before winter
had released its grip to permit navigation
out of Montreal and the train rumbied
through the night, through Malaie where
that state pokes a melancholy linger into
Canada's loney awatern reschie.

Canada's loney awatern reschie.

entered Saint John and the harbor area
where we subocourtly embarded on. a

entered Saint John and the harbor area where we subsequently embarked on. a freighter trip to Britain. The city covers a wide area — with east and west sections — and we seem to recall someone informing us that in area it is actually larger than Mont-

Champlain, the explorer who covered much ground during Canada's earliest orded times, landed there in 1603 and in recorded times, landed there in 1603 and in the late 1700's a group of United Empire Loyalists comprising more than 4,000 people, arrived there. All in all it is a historic scaport. The kind of publicity Saint John is getting these days though, it doubtless could do without.

· Outlawed

There are suggestions that if Sinn Fein, the political wing of the Irish Republican Army, is legalized and permitted to run in the election scheduled in Northern Ireland the election scheduled in Northern Ireland this summer, public support would be so lacking that the IRA itself would be effectively interesting thought but whether anything of the nort transpires is another thing. For one thing Sinn Fein (pronounced Shinn Fein, and meaning Curselves Alone) is not recognized in Northern Ireland. And the IRA litelf, although very vocal, remains out-lawed in both parts of the country. Nixon Aides on the Spot

A bargain for years.

Lawn-Boy may cost a fittle more, but then it lists a whole lot longer. And that means you'll be cutting your grass and exposes at the same lime, every time your grass and exposes at the same lime, every time you use it. When you consider Lawn-Boy has been known if a have gone on working (for yo lo 'eighteen years, that's a real bargain. You soe, a Lawn-Boy is built to last. It had ganestiam alloy housing is susproof for life and it's impossible to rust either the gas tank or engile shruot on most models. And with Lawn-

burnout.

In the years to come you'll be glad you own a Lawn-Boy for a lot of other reasons too. Use the law of transport self-years shall keep Lawn-Boy the most trusted name in lawn movers.

For fast, convenient service see the 1973 Lawn-Boys at your choice of over 1700 dealers and take house one of the 15 newly-misted modes. They come in gas-powered purish, self-yeopelied, commercial, follow and even cordess electric.
